

2009 Neighborhood Traffic Calming

Project Overview: ES-0427

2009 Neighborhood Traffic Calming is the annual program to introduce traffic calming measures for increased safety for motorized and non-motorized traffic. Areas are prioritized based on citizen input, accident and vehicle counts. This year's project includes two trail crossings, one located on Pacific St where the railroad trail crosses the streets and the other is located Broadway where the old village trail terminates before Elizabeth Park. The Pacific St location was included in the 2008 program, but was not completed due to lack of funding. The purpose of the projects is to improve pedestrian safety and slow down traffic.

Status - July 2009

Accomplishments: Construction is complete.

Next Milestones: Closeout

Affected Neighborhoods

Lettered Streets, Columbia, Roosevelt
