

**Fairhaven Neighborhood and Urban Village Plan
Meeting #5: Development Character – Height, Urban Village Design Guidelines
and Permitted Uses**

Exercise: Now is the time to set policy for the future and consider any clear-cut changes to be included in this planning effort. For instance, here are some ideas that have been raised. What do you think? Are there others? Please leave your comments or send them in to noliver@cob.org.

Thank you!

1. Haskell property – should it stay industrial? Commercial? Mixed?
2. Multi-family at Old Fairhaven Parkway – should it join the core?
3. Infill Toolkit in single-family zone?
4. Port of Bellingham property – set policy to guide redevelopment
5. Other?
