Bellingham Planning Commission

The idea of closing roads in the core of Fairhaven without first addressing the very real problem of parking is putting the cart before the horse. If it is the goal of the commission to close select roads in Fairhaven as part of the Urban Village experience we will need to solve the parking/access challenges and solutions first.

Is this chatter that i have been hearing the beginning of a solution for parking in Fairhaven or are you considering the possibility of street closures without parking improvements?

John Hauter

Property owner of 1108 11th Street Building & long time owner of Fairhaven Bike & Ski

Fairhaven Bike & Ski

Celebrating 40 Years

Locally Owned Since 1971
