

Bellingham Police Department  
Use of Force Statistics  
2018

*Bellingham*

**POLICE**

Washington State Accredited Agency

Your Bellingham Police Department maintains a commitment to our community by respecting the people we serve, acting with integrity and demonstrating accountability to those that we serve.

As entrusted guardians of our community, our interactions in the performance of our official duties sometimes brings us into conflict with members of society that fail to heed our community's wishes for order and peace. It is the policy of your police department that your officers may only use that amount of force that is objectively reasonable and necessary in the performance of their legal duties. Your police department's use of force policies are consistent with the laws of the United States and the State of Washington. Your police department also strives to have policies that are consistent, with identified "best practices," and contemporary scientific discovery and application.

The components for constitutional policing are training, policy and supervision. Your police department maintains the highest standards and attention to all three areas and will continue to be an agency that serves its community with commitment, vision and values.

For this data presentation, the numbers in parenthesis indicate the incident/percentage change from the collected 2017 data in similar categories.

# SECTION ONE: Incident Information

<b>Total number of use of force incidents:</b>	<b>242 / 0.36%</b>	<b>(+37 / +0.01%)</b>
• Incidents involving one officer:	24 / 10%	(-27 / -15%)
• Incidents involving more than one officer:	218 / 90%	(+64 / +15%)

According to the city's Computer-Aided Dispatch information from January 1<sup>st</sup> through December 31<sup>st</sup> of 2018 your Bellingham Police officers responded to a total of 67261 calls for service (+8299). These calls for service also included officer-initiated activities where an officer contacted someone, performed a traffic stop or witnessed an incident and were investigating further.

For fans of numbers, this means that **0.36%, or around three-tenths of one percent** of incidents in 2018 resulted in your officers using lawful force against a citizen.

## Incident origin:

• Call for service from 911	198 / 82%	(+27 / -1%)
• Self-initiated by officer(s)	44 / 18%	(+10 / +1%)

Put into perspective with the previous information this means that in all 67261 calls for service that your police officers responded to in 2018, only **forty-four times** did an officer's self-initiated contact result in one of your officers using lawful force against a citizen.

In numbers: **0.065%, or less than one-tenth of one percent**. (+ 0.007%)

## Reason for use of force:

• Active resistance to lawful commands	178 / 74%	(+36 / +5%)
• Actively aggressive towards officers	28 / 12%	(-3 / -3%)
• Assaultive towards officers	30 / 12%	(+3 / -1%)
• Life Threatening action towards officers	6 / 2%	(+1 / 0)

Your police officers are allowed by law to use force in the discharge of their duties.

As the information above has already shown, your police officers very rarely have to use force to accomplish their lawful objectives. The reasons listed above show that some citizens do not wish to submit to officers' lawful authority. How the citizens resist lawful actions of your officers is detailed hereafter, along with officers' responses.

### Citizen Resistance

• Barricaded	5 / 1%	(-2 / -1%)
• Fled on foot	42 / 9%	(-15 / -4%)
• Hiding	20 / 4%	(+9 / +2%)
• Physical resistance	160 / 35%	(+9 / +1%)
• Refuse lawful commands	234 / 51%	(+15 / +2%)

### Officers' Force Response

• Physical control(s)	463 / 44%	(+100 / -1%)
• Physical impact(s)	24 / 2%	(+11 / -1%)
• TASER display	40 / 4%	(+13 / +1%)
• Verbal command	433 / 41%	(+88 / -1%)
• Weapon pointing	8 / 1%	(+5 / 0)
• Restraints	15 / 1%	(+4 / 0)
• Less Lethal Shotgun	9 / 1%	(+5 / 0)
• Less Lethal Shotgun display	4 / <1%	(0 / 0)
• K9 application	20 / 2%	(+10 / +1%)
• TASER usage	19 / 2%	(+3 / 0)
• Vascular Neck Restraint	6 / 1%	(-3 / 0)
• Chemical Irritant	7 / 1%	(+4 / 0)
• Pursuit Immobilization Technique	3 / <1%	(+3 / +1%)
• Firearm	1 / <1%	(-1 / 0)
• Impact Weapon	0	(-2 / -1%)

A citizens' resistance to lawful commands can take more than one form; sometimes your officers' response to these situations necessitates finding a solution that safely resolves the situation. For example, a citizen may refuse a lawful command, then flee on foot and ultimately resist physically when located. For that one incident, three specific items are documented. In the same manner, one of your officers may give a lawful verbal command. When that lawful command is disregarded the officer may need to employ a physical control technique such as tackling a fleeing citizen. Thus, two specific items are documented.

Citizens were more likely to disregard lawful commands, and then offer physical resistance. Your officers used authorized physical controls like grabbing arms for handcuffing or holding folks from fleeing far more than deploying other modalities of force like TASERs or physical strikes.

And do not forget that **0.36%, or approximately three-tenths of one percent** of incidents in 2018 resulted in your officers using lawful force against a citizen, so your police department using force to accomplish lawful objectives is a rarity.

**Day of Week**

Sunday	39 / 16%	(+2 / -2%)
Monday	25 / 10%	(+3 / -1%)
Tuesday	38 / 16%	(+12 / +3%)
Wednesday	22 / 9%	(-13 / -8%)
Thursday	39 / 16%	(+17 / +5%)
Friday	36 / 15%	(+3 / -1%)
Saturday	43 / 18%	(+13 / +4%)

**Time of Day**

0620 - 1020	12 / 5%	(-4 / -3%)
1020 - 1620	57 / 24%	(-10 / -9%)
1620 - 2020	68 / 28%	(+18 / +4%)
2020 - 0300	81 / 33%	(+19 / +3%)
0300 - 0620	24 / 10%	(+14 / +5%)

## SECTION TWO: Involved Persons' Information

The data presented in this section will provide information on the citizens involved in your police department's use of force incidents, along with information on your police officers involved in those incidents.

**Injuries to Citizens due to Officers' force: 67 / 28% (+12 / +1%)**

- Did not require hospitalization

For 2018, your officers used lawful force **0.36%, or approximately three-tenths of one percent** in the incidents they responded to. Of the 67261 incidents your officers responded to, only 67 of those contacts resulted in any kind of notable injury to a citizen, all minor in nature.

In numbers: **0.099%, or one-tenth of one percent** of incidents responded to by your officers resulted in an injury from your officers using lawful force against a citizen.

**Citizens Transported to Hospital: 76 / 31% (+16 / +2%)**

As noted above, your officers noted that in 76 incidents where lawful force was used on citizens the citizen was transported to St. Joseph's Hospital for medical care. Most commonly citizens appear to be having a mental health issue that pose a danger to themselves or others; your police department strives to have mental health issues handled by the hospital, not the jail, and thus the citizens are taken to the hospital by your officers for the appropriate care.

<b>Injuries to Officers:</b>	<b>37 / 15%</b>	<b>(-7 / -6%)</b>
<b>Officers Transported to Hospital:</b>	<b>0</b>	<b>(0 / 0)</b>
<b>Median Age of Citizen:</b>	<b>32 years</b>	<b>(+0.5)</b>
<b>Median Age of Officer:</b>	<b>38 years</b>	<b>(0)</b>

Median ages were determined to be the best descriptor in these two categories, as the reader can gain a better appreciation for the more-likely ages rather than having an average age be skewed by outliers.

In addition, this information serves as a good reminder to the fact that your officers encounter folks from all age ranges in the performance of their official duties and sometimes encounter unlawful resistance from citizens, both younger and older.

#### **Race of Citizen**

• White	168 / 69%	(+27 / 0)
• Black or African American	27 / 11%	(+9 / +2%)
• American Indian	25 / 10%	(0 / -2%)
• Hispanic	18 / 7%	(+5 / +1%)
• Asian	4 / 2%	(-1 / 0)
• East Indian	0	(-2 / -1%)

#### **Race of Officer**

• White	535 / 92%	(+101 / +2%)
• Black or African American	11 / 2%	(-4 / -1%)
• Hispanic	21 / 4%	(+4 / +1%)
• East Indian	15 / 3%	(-1 / 0)
• Asian	1 / <1%	(+1 / +<1%)

#### **Resident of Whatcom County / Bellingham?**

• Yes	220 / 91%	(+31 / -2%)
• No	22 / 9%	(+8 / +2%)

Statistical analysis of police use of force often has a discussion component concerning the population demographics of the involved citizens. The reader is cautioned to remember that from a statistical basis, comparing outlying events to population demographics often will not give the reader an accurate assessment of the situation.

However, do not forget that in 2018 your officers used lawful force in only **0.36%, or around three-tenths of one percent** of incidents. So these incidents are truly outliers and thus may not adhere to population demographics. For example, eighteen citizens with Hispanic ancestry had lawful force used against them in order to achieve lawful objectives in 2018, **0.027%, or less than three one-hundredths of one percent** of the responses to incidents by your police department in the year; this is nowhere near the city demographic.

### Gender Identification of Citizen

- |          |           |             |
|----------|-----------|-------------|
| • Male   | 193 / 80% | (+39 / +4%) |
| • Female | 49 / 20%  | (0 / -4%)   |

### Gender Identification of Officer

- |          |           |             |
|----------|-----------|-------------|
| • Male   | 510 / 87% | (+82 / -2%) |
| • Female | 73 / 13%  | (+20 / +2%) |

### Considerations for Citizen's Actions

- |                                 |          |             |
|---------------------------------|----------|-------------|
| • Alcohol use perceived         | 79 / 25% | (-7 / -2%)  |
| • Mental health issue perceived | 88 / 28% | (+2 / +1%)  |
| • Drug use perceived            | 50 / 16% | (0 / 0)     |
| • Combination                   | 36 / 12% | (-8 / -2%)  |
| • Nothing perceived             | 60 / 19% | (+11 / +4%) |

This information was provided by your police department to better inform the community we serve about use of force incidents. Your officers are empowered by the laws of the United States and the State of Washington to lawfully use force when objectively reasonable and necessary. This authority is viewed as an awesome responsibility to our community and your officers wish to be transparent so that our community understands that, although a statistical rarity, sometimes your officers have to lawfully gain compliance in the performance of their official duties.

Future information will also display the year-to-date information so that the community maintains a trusting relationship towards their police department in the topic of police use of force.

Should you have any questions, comments or concerns please do not hesitate to contact Lieutenant Don Almer at 360-778-8641 or [dalmer@cob.org](mailto:dalmer@cob.org).
