Finance Department City of Bellingham

July 28, 2020

Mayor Seth Fleetwood, Bellingham City Council, and Residents of Bellingham, Washington:

I am pleased to provide the Comprehensive Annual Financial Report of the City of Bellingham for fiscal year ended December 31, 2019. This report is published annually as the official annual financial report and complies with State law (RCW 43.09.230) requiring annual reports for Washington municipal governments to be certified and filed with the Washington State Auditor's Office.

As management for the City, we assume full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that have been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Washington State Auditors have issued an unmodified ("clean") opinion on the City of Bellingham's financial statements for the year ended December 31, 2019. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Bellingham, incorporated in 1904, is in the Northwest corner of the state and is one of the top growth areas in both the state and the country. Located in Whatcom County, Bellingham is approximately sixty miles south of Vancouver, British Columbia, and ninety miles north of Seattle on the Interstate 5 corridor, and the City serves as the county seat. It occupies 28 square miles and serves a population of 91,610. Bellingham is the 12th largest of the 281 municipalities in the State of Washington and is empowered to levy a property tax on real property located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which it has done from time to time.

The City of Bellingham operates under the mayor-council form of government. Policy-making and legislative authority are vested in the governing council consisting of the mayor and seven other members, all of whom are elected at large. Council members serve four-year terms, with one member elected every two years. The mayor is elected for a four-year term and one municipal court judge also serves a four-year term. The mayor, with council approval, appoints the department heads. All elected members operate under the laws of the State of Washington.

The City provides a full range of local government services, including general government, public safety, culture and recreation, street, water, wastewater and storm utilities, parks, and other enterprise services.

Bellingham has one discrete component unit that is a separate legal entity from the City with its' own Board of Directors. The Bellingham-Whatcom Public Facilities District was established in 2002. Its mission is to create a regional center that will enhance economic development in the business core. It is funded by a state rebate of .033% of locally collected sales tax.

Local Economy and Outlook

Over the past three decades, the economy of Bellingham and Whatcom County has transitioned from a resource-based to a retail and service-based economy. Older industries such as agriculture, timber, and fishing have declined in importance. In 2008, retail, services, and manufacturing activities suffered the same economic downturn experienced both nationally and internationally. Beginning in 2010, and continuing through 2019, retail sales have increased in large part due to the strong housing and construction industry and our proximity to the Canadian border.

Since the bottom of the recession in 2009, there has been continued improvement in the City's key revenue sources. Compared to 2018, the City's overall revenues are up \$1.7 million. Efforts of the Mayor, Finance Director, and Department Heads to prioritize programs and expenditures to achieve a sustainable balanced budget are on-going. The City's General fund has improved significantly since 2009, and the 2019 fiscal year-end reserve reached \$30.8 million.

As reported by the Bureau of Labor Statistics, for the Bellingham Metropolitan Statistical Area, total non-farm employment declined from a previous high of 87,300 jobs in 2007 to a low of 77,700 jobs in 2010. In 2019, non-farm employment ended the year with 96,900 jobs.

The value of commercial and residential building projects increased from \$228.5 million in 2018 to \$257.1 million in 2019. New single-family dwellings were strong in 2019 with a valuation of \$43.9 million and 179 units; however, this was lower than 2018's valuation of \$45.4 million and 186 new units. Multi-family construction increased in 2019 with a valuation of \$71.2 million and 613 units, compared to \$36.3 million and 361 units in 2018. New industrial decreased in 2019 to \$8.4 million versus \$20.1 million in 2018. There were 811 total permits issued in 2019, down from 857 in 2018.

The City of Bellingham receives approximately \$2.21 per \$1,000 of assessed property value from property owners within the City limits. In 2019, this generated \$27.1 million government wide. Property taxes increased \$3.8 million over the prior year. Government-wide property tax revenue was allocated amongst the funds as follows: General fund \$15.3 million, Fire Pension and OPEB \$2.5 million, Greenways \$5.1 million, Low-income Housing \$4 million, and Waterfront Capital Construction \$56 thousand. Property tax provides roughly 22.9% of total government-wide general revenue.

Bellingham's General fund relies heavily on sales tax revenue, which is subject to larger economic swings than most other sources of government revenues. Retail sales have continued to benefit from our proximity to Canada and the strong construction market. In 2019, the City collected over \$37.9 million of sales tax revenues, an increase of \$1.6 million, a 4.5% rate of growth over 2018, and the highest sales tax revenue to date. Sales tax revenue generates approximately 32.1% of government-wide general revenue.

The chart to the right shows the sales tax growth over the last ten years. The CAFR retail sales and use tax balance includes the local retail sales tax, public safety sales tax, brokered natural gas use tax, criminal justice tax, transportation benefit retail sales and use tax, hotel/motel transient rent tax, and local revitalization sales tax; these additional six categories have larger swings and variances year over year and are included in the chart to the right.

Business and occupation (B&O) tax peaked in 2007 at \$12.2 million, followed by three years of decline, with B&O taxes reaching a low of \$10.4 million in 2010. Over the last nine years our economy has shown signs of recovery as is evident in the returning increase in B&O taxes. In 2019, B&O tax revenue hit \$17.7 million.

Tourism, education, and healthcare have a significant impact on the local economy. Our geographical location, including Bellingham Bay, the San Juan Islands, and Mt. Baker, offers significant recreational opportunities. Visitors spent \$705.7 million in Whatcom County in 2018, according to a study conducted by Dean Runyan Associates. This ranks fifth in visitor spending among the state's 39 counties. Western Washington University (the city's second largest employer), Whatcom Community College, and Bellingham Technical College host more than 32,572 students. St. Joseph Hospital, a 255-bed medical center and Level III Trauma Center serving Northwest Washington, is the city's largest employer.

Long-term Financial Planning

The City maintains a Financial Forecast of Revenue Resources and Expenditures for six years beyond the current budget year. This forecast provides the City's policymakers with an indication of the long-term fiscal impact of current policies and budget decisions. The City regularly test both its planning and forecasting methodology and use of planning and forecasting tools to provide information that is timely and accurate. This information allows the City to make short-term budgetary decisions as well as the foresight for long-term policy decision impacts. Capital projects will typically be based on City Council approved formal long-range plans, including the City's Legacies and Strategic Commitments, Capital Facilities Plan (CFP), the Comprehensive Plan and/or other supporting plans or studies. Each project will be evaluated based on its relative contribution to meeting the stated goals and objectives of these studies.

Relevant Financial Policies

The City must balance present and anticipated future needs for services and the City's ability to raise fees, charges, and taxes to support those services. The City strives to maintain a diversified mix of revenues to balance the sources of revenue amongst taxpayers and to provide ongoing stability and predictability. The City's overall revenue structure is designed to accrue to the City some of the financial benefits resulting from the City's economic and community development investments without being regressive in its application. It is the City of Bellingham's policy that "one-time" revenues, those considered to be available for only a limited period, will not be used for on-going operating purposes. When considering the use of new revenues for funding on-going employment costs, staff will assure that funding is available throughout the planning horizon or term-limit the position consistent with the duration of the revenue.

Major Initiatives

Waterfront Redevelopment / New Whatcom Special Development Area

In January 2005, the City of Bellingham partnered with the Port of Bellingham on the redevelopment of 237 acres of heavy industrial property formerly occupied by Georgia-Pacific Corporation (GP). The property's location, in the heart of Bellingham's historic waterfront district, makes this an ideal site for redevelopment, combining environmental cleanup with urban revitalization.

This is the largest redevelopment project in the history of Whatcom County and is the beginning of an exciting new era for Bellingham's waterfront. Over the next several decades, Bellingham's waterfront will undergo a transformation from an industrial waterfront site into a vibrant new neighborhood featuring breathtaking views, parks, trails, sustainable urban living, and a mix of essential new and traditional jobs.

During 2013, the City completed the master plan and environmental impact statement for the New Whatcom Special Development Area with the passage of Ordinance 2013-12-090. The City will provide infrastructure to the property including utilities, streets, and parks and trails as determined in a development agreement negotiated with the Port of Bellingham. Project development goals include rebuilding the tax base, providing commercial development opportunities, accommodating some of the city's expected residential growth, and providing public access to the waterfront.

In 2017, the City began construction of two new arterial streets in the Downtown Waterfront. This project includes new public utilities, bicycle and pedestrian facilities, parking, landscaping and street lighting. The project is providing utilities through the site, which will allow for mixed-use development within the area. A portion of the roadway and parking was open in 2018, and the project was completed in 2019.

In 2018, the City completed Central Pier and Waypoint Park, a waterfront park along Whatcom Waterway, adjacent to the new roadway and Granary building. The beach restoration of this park included removal of an old creosote bulkhead to create a pocket beach and backshore providing the public direct access to Whatcom Waterway.

The Port has signed an agreement with a master developer, who is currently reconstructing an old, picturesque Granary building into a mixed-use retail and office center that will serve as a gateway to the Waterfront District. This building currently under construction. Additionally, office and residential spaces in the area are slated for construction.

Financial Management and Controls

City management is responsible for establishing, implementing, and maintaining a framework of internal controls designed to ensure that City assets are protected from loss, theft or misuse, and to ensure that

adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. Internal accounting controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

The City maintains budgetary controls in accordance with State legal requirements. The objective of these budgetary controls is to ensure compliance with legal provisions established by the budget appropriations of City Council. The annual operating budget, or financial plan, is proposed by the Mayor and adopted by the City Council after a public process. Management control for the operating budget is maintained at the fund level.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Bellingham for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2018. This was the 18th year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

State law requires an annual audit of all City financial records and transactions by the State Auditor, an independent elected State official. The 2019 audit of the City has been completed and was performed in conformance with GAS. The financial statements of all City and agency funds have been included in this audit. Please refer to the Auditor's Opinion letter at the beginning of the Financial Section of this report.

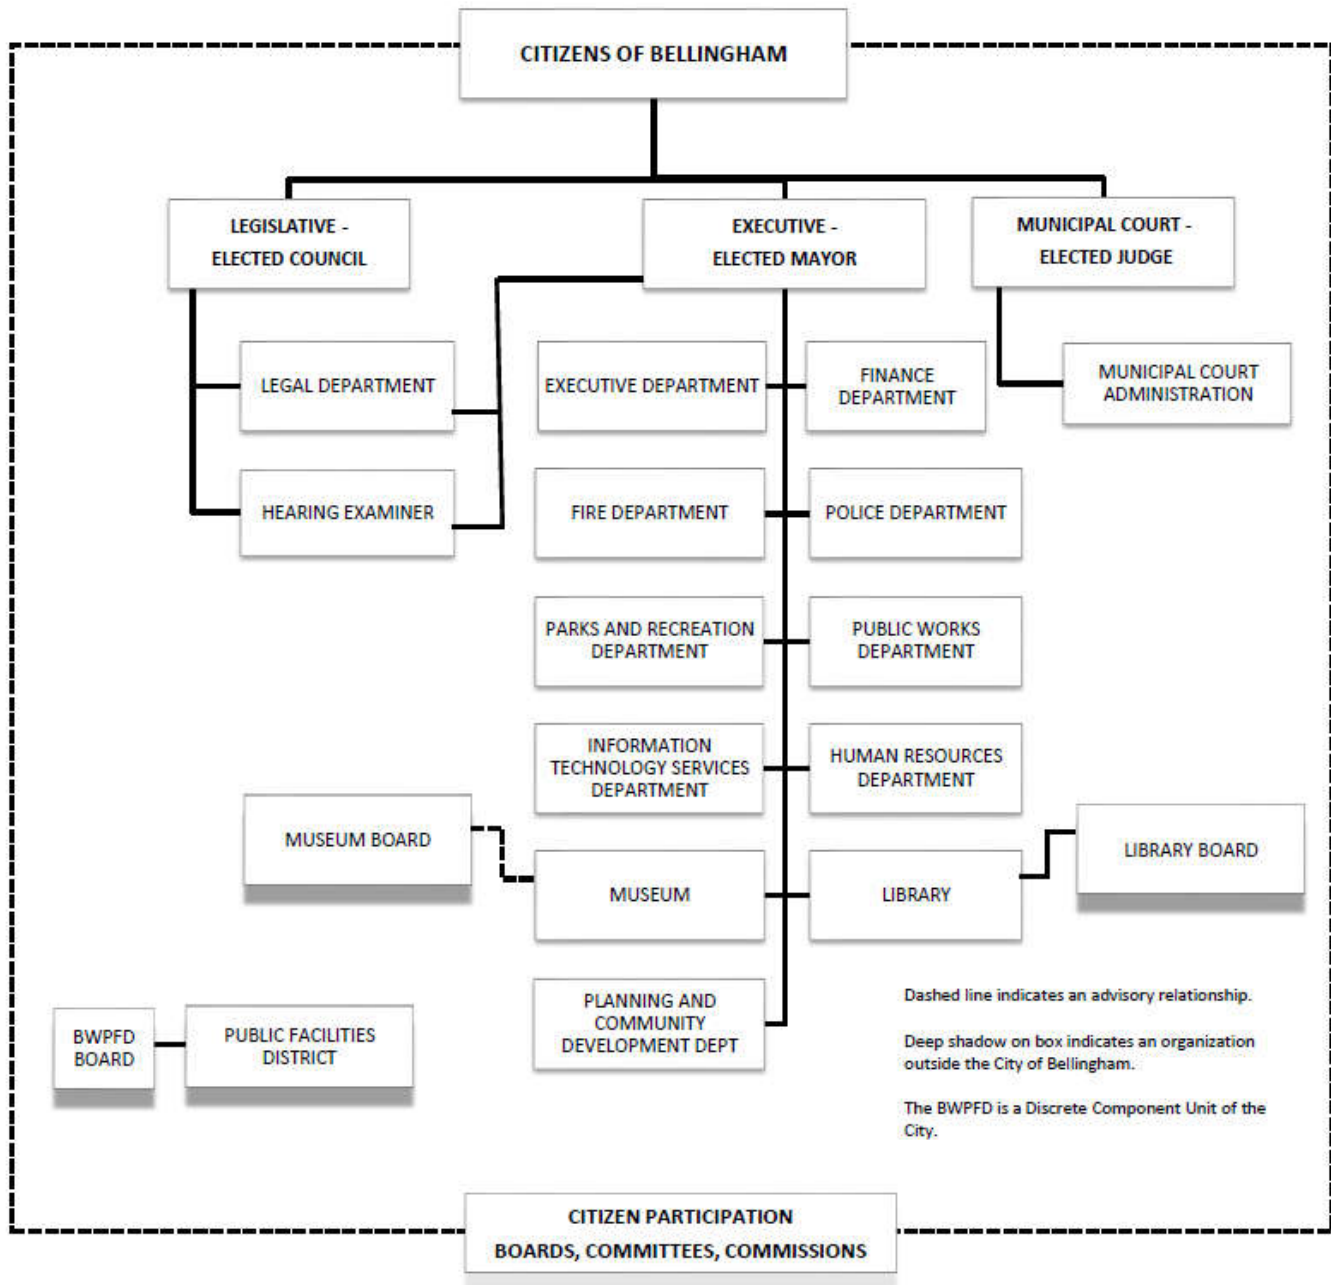

Preparation of this report could not have been accomplished without the professional, efficient, and dedicated services of Finance Department staff and other employees throughout the City who assisted in and contributed to its preparation. Further appreciation is extended to the Mayor and City Council for their encouragement, interest, and support in conducting the financial operations of the City in a responsible manner.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'Andy Asbjornsen', with a stylized flourish at the end.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

July 28, 2020

Mayor and City Council
City of Bellingham
Bellingham, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Bellingham, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness

of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Bellingham, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Matters of Emphasis

As discussed in Note 21 to the financial statements, in 2019, the City adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, and Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

As discussed in Note 23 to the financial statements, in February 2020, a state of emergency was declared that could have a negative financial effect on the City. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements as a whole. The combining financial statements and schedules are presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This information has been subjected to auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements as a whole. The Introductory and Statistical Sections are presented for purposes of additional analysis and is not a required part of the basic financial statements of the City. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we will also issue our report dated July 28, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report will be issued under separate cover in the City's Single Audit Report. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Sincerely,

A handwritten signature in cursive script, appearing to read "Pat McCarthy".

Pat McCarthy
State Auditor
Olympia, WA

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Bellingham presents this discussion and analysis as part of the financial statements for the fiscal year ended December 31, 2019. The information presented should be read in conjunction with the letter of transmittal, financial statements, and the notes to the financial statements.

Financial highlights

- At December 31, 2019, the City's government-wide net position, the amount by which total assets and deferred outflow of resources exceed total liabilities and deferred inflow of resources, totaled \$873.2 million. Of this amount, \$653.7 million, or 75%, is the net investment in capital assets. Of the remaining net position, \$53.8 million is unrestricted and may be used to meet the City's ongoing obligations.
- The net position of governmental activities is \$545.8 million, an increase of \$49.9 million, or 10.1% from 2018. This increase is due in part to prior period adjustments totaling \$13.8 million. The implementation of GASB 73 changed the Pension and OPEB funds from being reported as trust fund fiduciary activities to now be reported within the General fund as non-trust governmental activities. This change in accounting principle resulted in an increase in net position of \$9.2 million. An additional adjustment of \$4.6 million was made to recognize tax revenue in 2018 that was received in 2019 (see Note 22). Before the prior period adjustments, the increase in net position of governmental activities was \$36.2 million.
- The net position of business-type activities is \$327.4 million, which represents an increase of \$10.1 million, or 3.2% over 2018. This increase was due primarily to activity in the Water and Wastewater funds.

Overview of the financial statements

This discussion and analysis is intended to provide an introduction to the basic financial statements. The basic financial statements consist of three parts: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide financial statements

Government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. These statements are reported using full accrual basis of accounting. All funds are represented except custodial fund types.

- **The Statement of Net Position** presents financial information on all assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increased or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.
- **The Statement of Activities** presents financial information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cashflows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish function of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety,

transportation, natural and economic resources, social services, and culture and recreation. The business-type activities of the City include water, wastewater, surface and stormwater, solid waste, cemetery, golf course, parking, medic one, and development services.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate entity, the Bellingham-Whatcom Public Facility District (PFD) (known as the discretely presented component unit) for which the City is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

Fund financial statements

While the government-wide statement looks at the City as a whole and focus on types of activities (general government versus business-type activities), the fund financial statements provide a more detailed look at the City's individual major funds and combined fund types.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into three categories: governmental funds, proprietary funds, and custodial funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Governmental fund statements include balance sheets and statements of revenues, expenditures, and changes in fund balance. The accounting basis used is modified accrual and there are no capital assets or long-term debt included in these statements. Unlike the full accrual basis of accounting used in government-wide financial statements, governmental fund financial statements focus on current inflows and outflows of spendable resources and balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's current financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's current financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to compare the governmental fund statements and the *governmental activities* in the government-wide statements.

The City reports 22 individual governmental funds. Information for the General fund, the City's only major governmental fund, is presented separately in the basic statements. Data from the City's other governmental funds including special revenue, debt service, capital project, and permanent funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

Budgetary comparisons are included with the financial statements in the combining and individual fund statements section of the report and the required supplementary information section for the legally adopted General fund budget. These statements demonstrate compliance with the City's adopted and final revised budget.

Proprietary funds are used to account for the City's business-type activities where all, or part, of the cost of activities are supported by fees and charges that are paid directly by those who benefit from the activities. The fund level statements provide the same type of information as the government-wide

financial statements, only in more detail since both apply the accrual basis of accounting. In comparing the total assets and total liabilities between the two statement, you will notice only slight differences. One notable difference is that the “due from other fund” (asset) and the “due to other funds” (liability) are combined in a single line called “Internal balances” in the assets section of the government-wide Statement of Net Position. Proprietary fund statements include statements of net position, statements of revenues, expenses and changes in net position, and statements of cash flows.

The City reports two types of proprietary funds: enterprise and internal service funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City has nine enterprise funds, which account for the operations of four major funds: Water, Wastewater, Surface and Stormwater, and Solid Waste, and five other funds that are aggregated in the non-major enterprise fund column. *Internal service* funds are used to report activities that provide supplies and services for many City programs and to accumulate and allocate the associated costs of providing these supplies and services to the various functions. The internal service funds account for the nine funds: Fleet Administration, Purchasing Materials Management, Facilities Administration, Technology and Telecom, Claims and Litigation, Unemployment Compensation, Worker's Compensation Self-Insurance, Health Benefits, and Public Works Administration and Engineering. Because these internal fund services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

The Proprietary Fund Statement of Net Position and the Proprietary Fund Statement of Revenues, Expenses, and Changes in Fund Net Position present separate columns of financial data for the four major enterprise funds. Data from the remaining enterprise funds and internal service fund are combined and presented in their own, single, aggregated columns in the fund statement. Individual fund data for each of the non-major enterprise funds, as well as the internal service funds, are provided in combining statement following the basic financial statements.

Custodial funds are used to account for resources where the City acts as trustee or agent and is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The City has two funds that are reported as Custodial funds. The accounting used for these funds is similar in nature to proprietary fund reporting since it includes both short-term and long-term information and employs the full accrual method. Reports include a statement of net position and a statement of changes in plan net position. These funds are excluded from the government-wide financial statements because these assets cannot be used to finance City operations.

Notes to the financial statements

The notes provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents comparative budget statements for major governmental funds. This report contains certain required supplementary information concerning the City's Pension and Other Post Employment Benefit funds. Information is also provided for the City's participation in state retirement plans.

Government-wide overall financial analysis

Net position

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City of Bellingham, assets and deferred outflows of resources exceeded

liabilities by \$873.2 million, at December 31, 2019. This was an increase of \$60 million, or 7.4%, over December 31, 2018.

Net position (in thousands)						
	Governmental activities		Business-type activities		Total	
	2019	2018	2019	2018	2019	2018
Assets						
Current	\$ 192,991	\$ 146,951	\$ 90,688	\$ 81,639	\$ 283,679	\$ 228,590
Noncurrent	69,587	75,260	17,372	13,302	86,959	88,562
Capital assets (net of depr)	411,289	400,349	323,210	324,889	734,499	725,238

Deferred Outflows of Resources	7,915	7,704	1,097	1,087	9,013	8,791
Liabilities						
Current	11,360	8,711	5,106	5,390	16,466	14,101
Current portion long-term	8,386	8,040	5,431	4,866	13,817	12,906
Long-term noncurrent	97,819	100,851	92,821	91,886	190,641	192,737
Total liabilities	117,565	117,602	103,358	102,142	220,923	219,744
Deferred Inflows of Resources	18,424	16,829	1,581	1,435	20,005	18,264
Net position						
Net investment in capital assets	406,477	378,166	247,261	247,653	653,738	625,819
Restricted	149,622	128,102	16,079	12,590	165,701	140,692
Unrestricted	(10,306)	(10,435)	64,088	57,097	53,782	46,662
Total net position	\$ 545,793	\$ 495,833	\$ 327,428	\$ 317,340	\$ 873,221	\$ 813,173

By far, the largest portion of the City's net position, 75%, reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. During 2019, the net investment in capital assets increased by \$27.9 million.

An additional portion of the City's net position, 19%, represents resources that are subject to external restrictions on how they may be used. These restrictions include bond covenants, construction requirements, levy agreements, endowment terms, settlement agreements and the Revised Code of Washington. In 2019, the restricted resources total \$165.7 million. The remaining balance of \$53.7 million is unrestricted and may be used to meet the City's ongoing obligations to its citizens and creditors. This is an increase of \$7.1 million from 2018.

At the end of 2019, the City of Bellingham is able to report positive balances in all reported categories of net position for the government as a whole. The same situation held true for the 2018.

Changes in net position

In 2019, government-wide net position increased by \$60 million, of which governmental activities increased by \$49.9 million. This increase is due in part to prior period adjustments of \$13.8 million. In 2019, the City implemented GASB 73, which changed the reporting of the Pension and OPEB funds, which had previously been reported as trust fund fiduciary activities, to now be reported within the General fund as non-trust fund governmental activities. This change in accounting principle resulted in an increase in governmental net position of \$9.2 million. An additional adjustment of \$4.6 million was made to recognize business and occupation tax revenue in 2018 that was received in January and February 2019, for

December 2018 business activity (see Note 22). Before the prior period adjustments, the increase in net position of governmental activities was \$36.2 million. Governmental activities total revenues increased by \$588 thousand from 2018. Governmental activities program revenues decreased by \$8.4 million, while general revenues increased by \$9 million.

The business-type activities net position for 2019 increased by \$10.1 million over 2018. This increase is primarily due to revenues exceeding expenses. Total business-type activities revenues increased \$1.1 million, or 1.3% from 2018. In 2019 business-type general revenues increased \$1.6 million, while total program revenues decreased \$488 thousand. This decrease in program revenues was due to a decrease in both capital grant and contributions of \$2.2 million and operating grants and contribution of \$1.1 million from 2018.

Changes in net position *(in thousands)*

	Governmental activities		Business-type activities		Total

Revenues and expenses – government-wide

In 2019, overall government-wide revenues increased \$1.7 million, from \$230.8 million in 2018 to \$232.5 million. There were several elements that led to this increase in revenues, but was primarily due to a \$10.6 million increase in general revenues. The largest increases were in investment interest and property tax. Investment interest increased \$4.6 million, as interest rates continued to increase. Property tax increased \$3.8 million due to new construction. Increases were also seen in sales and use tax of \$1.6 million and business tax of \$731 thousand due to strong demand for services and products within the local economy. Offsetting the increase in general revenues for 2019, total program revenues decreased \$8.9 million from 2018. This was due to a decrease of \$14.7 million, or 63.4%, in capital grants and contributions.

Overall government-wide expenses increased by \$19.9 million, rising from \$166.4 million in 2018 to \$186.3 million in 2019. \$12.6 million of this increase was in the governmental activities and \$7.3 million was in the business-type activities.

Governmental activities

Governmental activities total program revenue decreased by \$8.4 million, from \$40.9 million in 2018 to \$32.5 million in 2019. While operating grants and contributions increased \$3.8 million, it was offset by a \$12.5 million decrease in capital grants and contributions. The increase in operating grants and contributions was mainly from a \$3.4 million increase in public safety. Capital grants and contributions decreased due to transportation capital grants reducing from \$18.7 million in 2018 to \$6.2 million in 2019, a difference of \$12.5 million. Charges for services had a small increase of \$300 thousand over 2018.

In 2019, expenses for governmental activities experienced an overall increase of 12.8%. Total governmental activity spending was \$111.1 million, a \$12.6 million increase over 2018 spending of \$98.5 million. 48% of this increase is attributed to public safety expenses increasing \$8 million. Expenses also increased for transportation by \$2.9 million, culture and recreation by \$1.9 million and natural and economic environment by \$1.7 million. These increases were offset by a decrease in general government expenses of \$2 million.

Business-type activities

Business-type activities program revenue decreased by \$488 thousand, from \$82.4 million in 2018 to \$81.9 million in 2019. While charges for services increased \$2.8 million, operating grants and contributions decreased \$1.1 million, and capital grants and contributions decreased \$2.2 million. Surface and Stormwater, Water, and Wastewater funds accounted for \$2.3 million of the increase in charges for services. This increase was due in part to utility rate increases. There were also increases in charges for services for Medic One of \$365 thousand and Development Services of \$238 thousand.

Expenses for business-type activities increased \$7.3 million from the prior year. The largest increase was Solid Waste fund expenses at \$3.7 million, due to an increase in pollution remediation liability. Smaller increases were seen in Surface and Stormwater of \$1.4 million, Water of \$1.3 million, Medic One of \$1.1 million, and Parking of \$1 million. Cemetery fund had a small increase of \$51 thousand. These increases were offset by a decrease in Wastewater fund expenses of \$753 thousand, Development Services of \$290, and Golf fund of \$90 thousand.

Fund level financial analysis

Governmental funds

Revenues

The City of Bellingham uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. In 2011, the City began reporting the former special revenue street fund in the General fund. In 2012, after further evaluation of all special revenue funds, the City reported additional activities in the General fund that were previously reported in the special revenue funds given the guidance of GASB 54. Currently, the City has nine special revenue funds reported within the General fund. Two of these funds, pension and OPEB funds, had previously been reported under GASB 68 as *trust fund* fiduciary activities. The pension and OPEB funds are now reported within the General fund under GASB 73 as *non-trust fund* governmental activities. The General fund is the City's only governmental major fund.

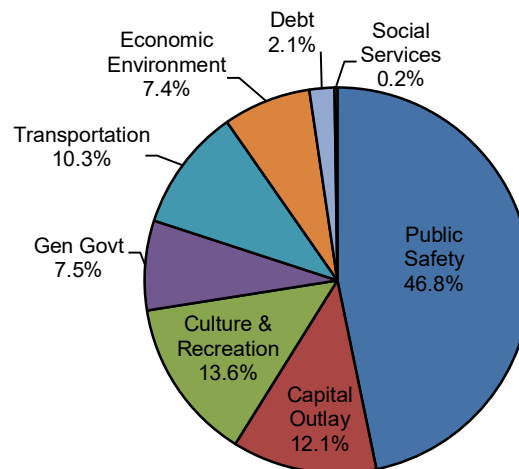

Fund balance in governmental funds increased \$38.6 million in 2019. Of this amount, \$15.3 million is related to excess revenues over expenditures, and \$26.8 million is a prior period adjustment, resulting in a final ending fund balance of \$199.5 million. Overall governmental revenues increased \$1.2 million, from \$140.7 million in 2018 to \$141.8 million 2019. While taxes increased \$5 million and miscellaneous revenues increased \$2.9 million, they were offset by a decrease in intergovernmental revenue of \$6.8 million. This decrease intergovernmental revenue was due to reduced revenues from capital grants.

Tax revenue is the City's most significant source of governmental revenue, representing 73.3% of total governmental revenue and 78% of General fund revenue. Tax revenue supports services such as streets, fire, police, and parks which are basic to the City's mission, although they do not generate substantial revenue. The major tax categories are retail sales and use, business and occupation, property, and utility tax. Overall, tax collections increased 5.1% from 2018 to 2019. Within the legally adopted original General fund, property tax had the largest increase, \$2.8 million or 13.8%. Increases were also seen in sales and use tax showed an increase of \$1.2 million, or 4.7%, and business tax increased \$591 thousand, or 1.7%. This increase in tax revenue is due to increased business activity within the strong local economy.

Governmental fund revenues 2019
\$141,832,513

Governmental fund expenditures 2019
\$126,532,529

Expenditures

Public safety consisting of fire, police, and municipal court accounts for 46.8% of governmental expenditures. Culture and recreation services, representing 13.6%, includes parks and recreation programs, the museum, and the library. Capital outlay accounts for 12.1%. Transportation includes both the maintenance and construction of transportation infrastructure and accounts for 10.3% of governmental expenditures. General government type expenditures comprising 7.5%, are typically overhead in nature, providing management, accounting, legal, personnel and technical services required by operating programs. Additionally, natural and economic environment is 7.4%, debt expenses is 2.1%, and social services represent .2% of total governmental expenditures.

Business-type funds

Net position increased by \$10.1 million, for a total of \$327.4 million in business-type funds. Operating revenues increased by \$2.8 million, or 3.7%, from \$75.9 million to \$78.7 million. Operating expenses increased by \$3.7 million, or 5.9%, from \$63.4 million to \$67.1 million.

The financial position of the City's business-type funds is largely influenced by the Water and Wastewater funds. Together they comprise 69.2% of operating revenues, 61.3% of expenses, and 83.4% of net position of each respective total for the enterprise funds.

The Cemetery is a business-type activity that requires support from the General fund. In 2019, the Cemetery received \$44 thousand cash operating subsidies. Medic One receives a portion of the voted EMS local sales tax from Whatcom County (see Note 15).

Financial analysis of City funds

At the end of 2019, the City has 22 governmental funds. The General fund is the primary governmental fund and is the City's only major governmental fund.

The General fund ending fund balance increased \$34.5 million, from \$79.7 million in 2018 to \$114.2 million in 2019. This increase is due in part to excess revenues over expenditures of \$7.7 million. The primary reason for this increase is prior period adjustments of \$26.8 million. In 2019, the City implemented GASB 73, which changed the reporting of the Pension and OPEB funds, which had previously been reported as trust fund fiduciary activities, to now be reported within the General fund as non-trust fund governmental activities. This change in accounting principle resulted in an increase in General fund net position of \$22.2 million. An additional adjustment of \$4.6 million was made to recognize business and occupation tax revenue in 2018 that was received in January and February 2019, for December 2018 business activity. See Note 22.

Fund balance for the non-major governmental funds increased by \$4.1 million in 2019, due in large part to excess revenues over expenditures of \$2.9 million and net transfers-in of \$1.2 million. Overall revenues increased \$1.1 million while expenses decreased \$390 thousand in 2019, as compared to 2018.

The City has nine business-type funds. The four major business-type funds are Water, Wastewater, Surface and Stormwater and Solid Waste. In 2019, the major funds all increased their net positions from 2018, except for Solid Waste which had a decrease of \$4.2 million. The increases were \$7 million in Water, \$6.6 million in Wastewater, and \$955 thousand in Surface and Stormwater. Operating revenues increased \$2.8 million, due in part to rate increases. Solid Waste has a negative ending net position of \$11.7 million (see Note 2B). In 2019, the pollution remediation liability was increased by \$4.3 million in the Solid Waste fund, which added to the negative ending net position. The City has five non-major enterprise funds: Cemetery, Golf, Parking Services, Medic One and Development Services. Overall net position for the five funds decreased by \$326 thousand in 2019, compared to 2018. Cemetery and Development Services both increased net position, while Golf, Parking, and Medic One experienced a decrease.

General fund budgetary highlights

The budget is legally adopted at the fund level, including the General fund budget. GASB 34 requires the legally adopted budget of the General fund to be presented as required supplementary information (RSI). Accordingly, the General fund in its originally adopted form along with a reconciliation of the General fund presented in the GAAP basis basic financial statements is presented as RSI. The General fund presented in the basic financial statements in accordance with GAAP includes nine other funds with legally adopted budgets that do not meet the requirements of a special revenue fund per GASB 54 and have accordingly been combined with the General fund. To see comparisons of the original General fund and the General fund combined per GASB 54, see the reconciliation schedule in the RSI section of the financial statements. The City of Bellingham budgets on a biennial basis. The 2019-2020 adopted General fund budget for expenditures (pre-GASB 54 rollup) is \$167.7 million, the final budget after all amendments is \$177.1 million. Amendments to the budget are made for the following purposes:

- Supplemental appropriations approved after the beginning of the year to reflect actual beginning account balances and to correct the estimated amounts in the budget adopted in December 2018.
- Increases and decreases in appropriations to recognize actual program costs.
- New appropriations to acknowledge unanticipated revenues and corresponding expenditures.

2019 was the first year of a two-year budget cycle. 2019 actual revenues are 48.1% of the final two-year budget amount. Property tax, sales and use tax, business tax, other taxes, and licenses and permits actual revenues finished the year at 49.3-51.5% of the final two-year budget. Intergovernmental revenue came in above budget at 112%. Investment income and miscellaneous revenue also came in above budget at 59.8%, and 64.8%. These revenues were offset by charges for services which was below estimated budget at 20.1%. Business taxes included both business and occupation taxes (B&O) taxes as well as utility taxes. Both B&O taxes and utility taxes have been strong in 2019 due to increased business activity from the stronger local economy as previously stated above.

Actual expenditures for 2019 are 44.6% of the final two-year budgeted amount. This is mainly due to general government expenditures coming in at only 30.7% of budget.

The General fund actual ending fund balance of \$40.1 million is above the projected final ending balance of \$22.4 million, a \$17.8 million difference. The General fund ending balance is above budget due to 2019 being the first year of a two-year budget.

Debt administration and capital assets

Long-term debt

At December 31, 2019, the City's total outstanding debt was \$107.6 million, a decrease of \$4 million from 2018.

Outstanding debt (in thousands)

	Governmental activities		Business-type activities		Total		Increase (Decrease)
	2019	2018	2019	2018	2019	2018	2019-2018
General obligation bonds	\$ 23,311	\$ 24,825	\$ 3,623	\$ 4,148	\$ 26,934	\$ 28,973	\$ (2,039)
Revenue bonds	-	-	61,537	63,054	61,537	63,054	(1,517)
Government loans	3,591	4,166	15,444	15,346	19,035	19,512	(477)
Notes payable	48	63	-	-	48	63	(15)
Total	<u>\$ 26,950</u>	<u>\$ 29,054</u>	<u>\$ 80,604</u>	<u>\$ 82,548</u>	<u>\$ 107,554</u>	<u>\$ 111,602</u>	<u>\$ (4,048)</u>

The City's bond rating as assigned by Standard & Poor's Ratings Services (S&P) is 'AA+' and the rating is a long-term rating to the City's series 2016 limited-tax general obligation (GO) refunding bonds.

State law limits the amount of general obligation debt the City can issue to a percentage of the total assessed value of the taxable property. The limits are 1.5% non-voted, 2.5% voted and non-voted, and 7.5% voted if excess over 2.5% is for utilities, parks, or open space development.

More detailed information about long-term debt is presented in Note 10.

Capital assets

At December 31, 2019, the City has invested \$734.5 million in a wide range of capital assets throughout governmental and business-type activities, an increase of \$9.3 million from the previous year. This was primarily due to an increase in Construction in Progress of \$10.9 million. This increase is due to the following projects:

- Cordata Community Park totaled \$4.7 million
- Non-Motorized Improvements totaled \$2 million
- Cordata/Stuart Roundabout totaled \$1.9 million
- Orchard Street Extension totaled \$1.4 million

Capital assets (net of depreciation, in thousands)

More detailed information about capital assets is presented in Note 6.

In addition to the capital assets shown above, the City also has made commitments to fund several water, wastewater, surface and stormwater, parks, and street projects. Of the current capital commitments, \$17.5 million has been spent to date with \$7.7 million remaining.

Economic factors and Next Year's Budget

The City of Bellingham budgets on a biennial basis. 2020 represents the second year of the 2019-2020 Biennial Budget. The budget was initially developed in 2018 and in late 2019 was modified through a robust mid-biennial process that included an updated revenue forecast. The two-year budget assumes revenues totaling \$597 million and expenses of \$677 million. The expenses in excess of projected revenues are primarily for capital projects and other one-time expenses.

In 2019, the City of Bellingham saw the same sustained economic growth that it has enjoyed over much of the past eight years, including record permitting and construction activity, a major driver of General fund tax revenues. During this time period, City leaders have demonstrated fiscal restraint and provided the City with strong base of reserves to weather potential financial crisis.

The 2020 forecast accounted for continued economic growth at a slightly slowed rate. Revenues from economically variable tax categories such as sales tax and business and occupation were adjusted up to account for the robust receipts of 2019, but growth rates were projected to slow and regress closer to historical averages. Fee-based utility revenues were projected to maintain the previous projections based on pre-determined fee increases tied to the consumer price index.

In response to the COVID-19 crisis, the City anticipates revenue to fall significantly short of budgeted amounts in 2020. In February 2020, the Governor of the state of Washington declared a state of emergency in response to the spread of the virus. Steps to slow the spread have included closing schools, colleges, and universities, cancelling public events, prohibiting public and private gatherings, and requiring people to stay home unless they are leaving for an essential function. The full extent of the financial impact to the City will depend on the length of time these measures will be in place, which is unknown at this time. To offset this shortfall, budgets have been reduced throughout the General fund, and further steps will continue to be evaluated as more information is available.

Contacting the City's financial management

This financial report is designed to provide those with an interest in the City's financial condition with a general overview of the City's finances and to demonstrate accountability for the money it receives. The activities of the City's discrete component unit is also reflected in the basic financial statements. Questions concerning any of the information contained herein or requests for additional information should also be addressed to the Finance Director, City of Bellingham, 210 Lottie Street, Bellingham, WA 98225.

CITY OF BELLINGHAM
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended December 31, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds **\$ 11,770,838**

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.

Purchases	15,313,266	
Depreciation	(10,609,132)	
Contributions/donations	1,181,583	
Abandonments	(436,851)	
Retirements	(154,422)	
Depreciation on retirements	154,422	
		5,448,866

The following revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds:

Accrued investment interest	166,920	
Deferred loss on bond refunding	(136,969)	
Unearned revenue	7,672	
		37,623

Internal service funds are used by management to charge the cost of certain internal functions, goods, and services to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities. 8,109,845

The following expenses in the statement of activities that do not use current financial resources are not reported as expenditures in governmental funds.

Accrued interest payable on long-term debt	4,497	
Compensated absences	(282,897)	
OPEB expense	4,513,980	
Pension expense	4,448,666	
GO bonds, loans, and notes payable	1,897,216	
Premiums on long-term debt	205,426	
		10,786,888

Change in net position of governmental activities **\$ 36,154,060**

The notes to the financial statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Bellingham have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Significant accounting policies and their application in Bellingham are described below.

A. Reporting entity

The City of Bellingham was incorporated on July 29, 1904. It operates under the laws of the State of Washington applicable to a first class, home rule, Charter City with a mayor-council form of government.

The City is a general-purpose government and provides public safety, fire prevention, street improvement, parks and recreation, judicial administration, planning, economic development, and general administrative services. The City owns and operates water and wastewater utilities, a golf course, a museum, three libraries, a parking enterprise, a cemetery and an aquatic facility. The City operates police and fire dispatch centers that are jointly funded by local entities. The City's financial statements include all of these operations that are controlled by or are dependent on the City.

For financial reporting purposes, in conformance with GASB 61, the City of Bellingham considered for inclusion all governmental activities, organizations and functions for which the City is financially accountable. Relevant criteria for including an organization as a component unit within the City's reporting entity are delineated in GASB Statement No. 61 and include considerations such as the following:

- Whether or not the City appoints a voting majority of the organization's governing body
- The City is able to impose its will on that organization
- There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City
- The organization is fiscally dependent on the City

The accompanying financial statements present the City and its component unit, an entity for which the City is considered financially accountable. The City's discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City and does not meet the criteria for blending as laid out in paragraph eight of GASB No. 61.

Discretely presented component units

The Bellingham-Whatcom Public Facilities District (PFD), established in 2002, is a separate Washington municipal corporation and an independent taxing authority created under RCW 35.57, Bellingham Municipal Code Chapter 2.94, and Whatcom County Code Chapter 1.17. The PFD was created in order to receive a state sales tax rebate for the purpose of creating a regional center. The Board of Directors consists of seven members, appointed in accordance with RCW 35.57 and approved by Bellingham City Council. The City, through an interlocal agreement with the PFD, provides administrative services and financial management.

The City issued bonds on behalf of the PFD in 2004 which were refunded in 2012 by the City to achieve debt savings. The PFD issued bonds in 2007 and these bonds were advance refunded and defeased in 2016 by the City also to achieve debt savings. The City issued the 2016 refunding bonds on behalf of the PFD. Payments for both bonds issued by the City on behalf of the PFD, are expected to be made from PFD tax revenues. The PFD is obligated under interlocal agreement 2016-0268 to repay the City for both bonds. Given that the PFD is legally separate from the City, the PFD's board is appointed by the City, the

City can impose its will on the PFD, and none of the criteria in GASB No. 61 paragraph eight apply to the PFD, the PFD qualifies as a discrete component unit.

As a discrete component unit, the PFD is reported in its own column in the government-wide basic financial statements.

B. Basis of presentation - government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Fiduciary fund resources are not available to the City and are not included in the government-wide statements.

The statement of activities shows the degree that the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Our policy is to allocate indirect costs to a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Internally dedicated resources are reported as general revenues rather than program revenues. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges for services that are also offered to the general public. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. These charges are included in direct program expense.

Separate fund financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the basic financial statements.

The City reports the following major governmental funds:

The *General fund* is the City's operating fund. It accounts for all financial resources of the general government, except those required or elected to be accounted for in another fund. Beginning in 2011, street maintenance was added as part of the *General fund* presented in the CAFR. In 2012, several additional former special revenue funds were reported in the *General fund* to comply with GASB Statement No. 54. In 2019, the two former fiduciary pension funds are also reported in the *General fund* to comply with GASB Statement No. 84. As of 2019, there are a total of nine funds in addition to the originally budgeted *General fund* that roll up as part of the combined *General fund* presented in the CAFR. These additional former special revenue and fiduciary funds, now referred to as *General fund subsidiaries*, are budgeted separately from the *General fund* and have individual budget and actual statements included in the combining and individual fund statements. See RSI for the composition of the *General fund*.

The City reports the following four major proprietary funds:

The *Water fund* accounts for the activities of the City's largest utility. The revenues are received from the sales of materials, supplies, and services. Expenses are for maintenance and extension of water

service systems. This fund also reflects the accounting of revenue bonds outstanding, the funds available for redemption of bonds, cumulative reserve and construction funds.

The *Wastewater fund* accounts for the activities of the City's second largest utility. The revenues are received from the sales of materials, supplies, and services. Expenses are for maintenance and extension of wastewater service systems. This fund also reflects the accounting of revenue bonds outstanding, the funds available for redemption of bonds, cumulative reserve and construction funds.

The *Surface and Stormwater fund* accounts for the activities of the utility. The primary source of revenue is a service charge for impervious surface runoff. Expenses are for construction, improvements and maintenance of the City's stormwater facilities, updates of the stormwater master plan, and acquisition of additional wetland and open space.

The *Solid Waste fund* accounts for litter compliance expenses and also accounts for remediation costs of cleaning up several landfill sites. The City has issued two general obligation bonds for the City's share of remediation costs to be repaid primarily by net revenues from the *Solid Waste fund*. These revenues are generated principally by tax revenues paid by the City's garbage contractor.

Additionally, the City reports the following fund types as separate columns in the basic financial statements:

Internal Service funds account for fleet administration, purchasing and materials, facilities administration, technology and telecommunications, claims and litigation, employee benefits, and PW administration and engineering. These funds provide services to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. Because these services benefit governmental operations more than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Fiduciary funds are custodial in nature and represent assets held in a trustee or agency capacity for others. These funds do not report results of operation. Custodial funds consist of the *Guaranty Deposit* and *School Impact Fee* funds.

C. Measurement focus, basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cashflows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered measurable and available only when cash is received by the government.

The proprietary, pension and other postemployment benefit trust, and private-purpose trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

The custodial funds have no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balances

Deposits and investments

The City's cash and cash equivalents are defined as any funds that are available immediately or within 90 days. These funds consist of imprest cash on hand, bank deposits, certificates of deposits, and deposits with the local government investment pool (LGIP).

Investments for the City as well as for its component units are reported at fair value. The LGIP operates in accordance with appropriate state laws and regulations. The reported value of the LGIP is the same as the fair value of the pool shares. Investments are reported separately on the balance sheet. Excess cash balances of all City funds are pooled and invested. The annual change in investment balances is shown net of "Proceeds from sales and maturity of investment securities" and "Purchase of investments" on the statement of cash flows.

Interest income is distributed monthly to the funds based on the average daily fund balance. Interest from the following funds is assigned to the *General fund*:

- Library Gift
- CDBG Grant
- Drake Note
- Governmental Debt Service
- Guaranty Deposit
- Accounts Payable
- Payroll Clearing

Receivables

Accounts receivable consist of amounts owed from private individuals or organizations for goods and services. Receivables have been recorded net of an allowance for uncollectible amounts. Allowances for uncollectible amounts are calculated as a write-off of bad debt expense.

- 1) Interest receivable consists of amounts earned, but not received, on investments.
- 2) Notes and contracts receivable consists of principal amounts owed on open accounts from private individuals or organizations for goods and services rendered.
- 3) Special assessments are recorded when levied. Special assessments receivable consists of current and delinquent assessments and related interest and penalties.
- 4) During the year, property tax revenues are recognized when received. There is no allowance for uncollectible taxes. The City considers delinquent taxes fully collectible.

Interfund activity

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as “interfund loans receivable/interfund loans payable.” All other outstanding balances between funds are referred to as “due to/from other funds” in the basic and combining statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Inventories and prepaid items

Inventories in governmental funds consist of expendable supplies held for consumption. The cost is recorded as expenditure at the time individual inventory items are purchased.

Inventories in proprietary funds are valued on a cost basis using the weighted average method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements.

Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life are not capitalized.

Major outlays for capital and improvements are capitalized as projects are constructed. Street infrastructure assets are entered into the system on a “network” basis since these assets consist of several different components of road and street construction. The project plans maintained in the engineering division of public works provide details regarding these components.

Capital assets are defined by the City as assets with an estimated useful life in excess of one year and an individual cost for each asset category in excess of the following amounts. All depreciable assets are depreciated using the straight-line method.

Asset category	Asset threshold	Useful life (years)
Land	Any amount	No limit
Buildings	\$ 50,000	20-50
Equipment:		
Fleet replacement	10,000	3-25
Machinery and equipment	10,000	3-25
Network IT/electronics/communications	25,000	3-25
Intangible software	50,000	7
Improvements:		
Infrastructure	50,000	20-50
Leasehold	50,000	10
Other	50,000	5-50

The City has acquired certain assets with funding provided by federal financial assistance programs. Depending on the terms of the agreements involved, the federal government could retain an equity interest in these assets. These assets are identified in the asset system as partially grant funded for tracking purposes in the event of a sale or surplus of the item.

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expenditure until consumed.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as a revenue until acquired.

Compensated absences

City policy permits employees to accumulate unused vacation leave. Vacation leave is earned at rates established in individual bargaining unit agreements. Each employee may accumulate up to double their established annual accrual rate. Unused vacation is payable upon termination of employment. Upon retiring, contractual limitations have been imposed on PERS I employees to limit vacation payout to a maximum of 240 hours. Currently, certain bargaining groups (by individual contracts) are also eligible for an annual vacation leave cash out program. Employees with accumulated banks of at least 88 hours on October 15 of each of year, have the option of cashing out a minimum of 8 hours to a maximum of 40 hours of vacation leave accumulated. Employee banks will be reduced by the number of hours cashed out and balance of at least 80 hours of accrued vacation leave must remain in the bank when the transaction is complete. Vacation liabilities are recorded at year-end in full accrual funds and in the government-wide statements.

City policy permits employees to accumulate unused sick leave. Sick leave is earned at rates established in individual bargaining unit agreements. Each employee may accumulate a maximum of 1040 hours approximately. This number varies based upon which union you are in. Unused sick leave is payable upon termination only to LEOFF II employees. LEOFF II employees may cash out up to 150-300 hours of their accumulated sick leave balance upon retirement depending upon whether they are fire or police employees. The City maintains a liability in the proprietary funds for future sick leave cash-out payments. Currently, both the Teamsters 231 and AFSCME 114 bargaining groups are also eligible for an annual optional sick leave cash out program. Employees with accumulated banks of at least 480 hours on December 15 of each year, have the option of cashing out 25 percent of sick leave hours accumulated and not used in the prior twelve-months. Employees with 720 hours, have the option of cashing out 50 percent, and employees with 960 hours receive automatic compensation of 48 hours with no leave bank reduction.

Pensions

The net pension asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the City of Bellingham Firefighters' (FFP), City of Bellingham Police Officers' (POP), and the Washington State Department of Retirement Systems (DRS) pension plans', and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by each plan. For this purpose, plan contributions (if applicable) are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other post-employment benefits (OPEB)

The total liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the net position of the City of Bellingham Firefighters' (FHC), City of Bellingham Police Officers' (PHC) healthcare plans', and additions to/deductions from the plans' net position have been determined on the same basis as they are reported by each plan. For this purpose, benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long-term obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund statements of net position. Bond premiums and discounts, are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Restricted assets

Enterprise funds have accounts that contain resources for construction and debt services. Certain proceeds of the *Water* and *Wastewater funds'* revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position in compliance with applicable bond covenants. The amount of these restricted assets is reported in the long-term debt note.

Contributions of capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets (e.g. developers), and grants or outside contributions of resources restricted to capital acquisition and construction.

Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Comparative data/reclassifications

Comparative data for the prior year have been presented throughout the financial statements in order to provide an understanding of the changes in the financial position and results of operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year presentation.

Fund balance

The City of Bellingham is a first class charter City in the state of Washington organized with a council-mayor form of government. City management is led by the elected Mayor in a strong-Mayor, weak-Council form of government. The Mayor and the City Council are the bodies with the "highest level of decision-making authority". In accordance with GASB Statement 54, governmental fund balance

reporting and governmental fund type definitions, the City classifies governmental fund balance as follows:

Non-spendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints. The City has permanent funds, prepaid items, and inventories within the non-spendable fund balance category.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed or constrained due to constitutional provisions or enabling legislation. The City's restricted fund balance includes HUD grant money restricted for federal projects, the spendable portion of permanent funds, debt service, and special revenue funds. Special revenue fund balance, purpose and funding sources can be found in the combining and individual fund statements.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end. In order to commit funds to a specific project or activity the City Council, the highest level of decision-making authority, must take the formal action of passing an ordinance. An ordinance becomes part of the City's Municipal Code and is the highest-level action the Council can pass. An ordinance constitutes a binding constraint on the resources affected. In order to modify or rescind an ordinance the Council must amend or repeal the Municipal Code by adopting another ordinance. Items are committed by a majority vote of the City Council except when there has been a veto by the Mayor which then requires a super majority vote of the City Council. The *General fund* has a sum committed for estimated legal environmental costs.

Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Items are assigned by the Mayor or the Mayor's designee within City funds and within City departments. Fund balance may be assigned by the Finance Director or Budget Manager. The Financial Management Guidelines written and endorsed by the Bellingham City Council with Resolution No. 2010-17 establishes the authority to assign fund balance amounts.

Unassigned – the residual balance for the *General fund* is unassigned. The *General fund* is the only fund that can report a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Spending prioritization in using available resources

When both restricted resources and other resources (i.e., committed, assigned, and unassigned) can be used for the same purpose, the City budget considers restricted resources to be spent first. When committed, assigned, and unassigned resources can be used for the same purpose, the flow assumption in the City budget is to spend in the sequence of committed resources first, assigned second, and unassigned last.

Fund reserve goals

The City has Financial Management Guidelines that sets reserve goals and reserve minimums for selected City funds including the *General fund*, *Water*, *Wastewater*, *Surface and Stormwater*, *Parking*, *Medic One*, *Fleet*, and the *Health Benefits* funds. This document is available on the City's website at:

<https://www.cob.org/Documents/finance/publications/2010-financial-management-guidelines.pdf>

When a fund falls below its minimum reserve level as established in the publication approved above, the Mayor is required to present to Council a financial plan, within 60-days, that will restore the fund reserve balance to at least its minimum level within the shortest time period feasible, not to exceed three years.

Meeting the minimum reserve goal is integral to the budget process and is reported in the Adopted Budget document. The budget department tracks the reserve amounts throughout the year. At year end the actual ending reserves are reviewed and adjustments are made if required.

Net position

In accordance with GASB Statement 63, proprietary, fiduciary, and government-wide financial statements shall report net position. Concepts Statement 4 identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement 34. The elements of net position are similar to those of net assets. Net position represents the difference between all other elements in a statement of financial position and should be displayed in three components: net investment in capital assets, restricted, and unrestricted.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary information

Biennial appropriated budgets are adopted for the general, special revenue and debt service funds on a basis consistent with generally accepted accounting principles (GAAP). Capital project funds adopt budgets on an individual project basis. Proprietary and fiduciary funds are budgeted for management purposes only. National Council on Governmental Accounting Statement No. 1 requires financial statements presenting budgetary comparisons for governmental fund types only.

Biennial appropriated budgets are adopted at the fund level and legal budgetary control is established at the fund level. Legal budgets are adopted for the nine subsidiary funds consolidated with the *General fund* for GAAP reporting. Budget to actual schedules for these consolidated funds are included in the combining statements. Subsidiary revenue and expenditure ledgers are used to compare the budgeted amounts with actual revenues and expenditures. As a management control device, the subsidiary ledgers monitor expenditures for individual functions by department, activity and object class; however, this level of budgetary monitoring is not legally mandated. Appropriations for all funds lapse at the end of every even year.

The City's budget procedures were created in accordance with RCW 35.34. On or before November 1, every even number year, the Mayor submits a proposed budget to the City Council for the following odd and even number years. This budget is based on priorities established by the Council and estimates provided by City departments during the preceding months. The budget is balanced with revenue estimates made by the Finance Director. Council conducts public hearings on the proposed budget on or before the first Monday in December. The Council makes its adjustments to the proposed budget and adopts, by ordinance, a final balanced budget by fund, no later than December 31. Within 30 days of adoption, the final budget is available to the public.

The Finance Director, designated by the Mayor, authorizes transfers of budgeted amounts between accounts. However, any revisions that alter the total expenditures of a fund must be approved by the City Council. The City Council may determine that it is in the best interest of the City to increase or decrease the appropriation for a particular fund. It must do so by ordinance approved by simple majority, after first holding public meetings providing the public the opportunity to speak.

In the middle of the two year budget cycle, the City may prepare a proposed mid-biennial budget modification. Public hearings on the proposed budget modification are held and the mid-biennium budget modification is presented in an ordinance for adoption by the City Council during this period.

At the end of each two year budget cycle, the City may re-appropriate budget for outstanding encumbrances at December 31, into the following budget cycle. Encumbrances are committed amounts for goods and services ordered or contracted.

B. Deficit fund equity

As of December 31, 2019, the following funds reported deficits in fund balance or fund equity:

Fund 440 – The Solid Waste fund has a deficit net position of \$11.7 million. This deficit is due to 1) In 2005 the City issued bonds totaling \$8.7 million, and in 2014 issued bonds totaling \$5.5 million to advance refund and defease bonds maturing in years 2020-2025. The *Solid Waste fund* has a bond payable liability of \$3.6 million on December 31, 2019. The purpose of the 2005 bonds was to finance (a) the environmental cleanup of the Holly Street landfill, (b) the City's share of the environmental cleanup of the Cornwall Avenue and Central Waterfront landfill sites by the Port of Bellingham, and (c) the acquisition of the Colony Wharf property adjacent to the Roeder Avenue landfill. In 2006, the *Solid Waste fund* sold Colony Wharf to the *General fund*, so it no longer has the asset, but still has a liability for the debt. The remediation expenses did not increase assets. 2) Per GASB 49, the City has a net pollution remediation liability in the *Solid Waste fund* of \$14.4 million on December 31, 2019. The utility tax received by the *Solid Waste fund* was increased from 7% to 11.5% effective May 1, 2005, in order to accommodate the debt service requirements for the projects funded from bond proceeds. The deficit will be reduced as the bonds payable liability is reduced and as the pollution remediation liability is reduced. See Note 14 for further discussion on pollution remediation.

Fund 530 – The Facilities Administration fund has a deficit net position of \$787 thousand. This deficit is largely due to issuing qualified energy conservation bonds in 2011 to finance noncapital improvements in over 20 City owned municipal buildings. These improvement expenses did not increase assets. The deficit will be eliminated when the bonds mature in 2025. These are term bonds; principal is due in full on the maturity date. The *Facilities Administration fund* has a long-term bond payable liability of \$6.1 million on December 31, 2019.

Fund 570 – The Public Works Administration and Engineering fund has a deficit net position of \$14 thousand. As an internal service fund, this fund provides services to other funds within the government and is reimbursed based on an allocation for these costs. In 2015, the recovery costs charged to the funds that received labor and benefits from fund 570 was an estimate of the actual costs incurred and the estimate was too low to recover all costs incurred. In 2016-2019, this deficit issue has improved and should continue to improve in the future due to allocating the actual costs incurred in fund 570 amongst the funds receiving the benefits. Additionally, there is a deficit in this fund because of the net pension liability of \$726 thousand on December 31, 2019. This liability is a result of GASB 68's implementation and has been allocated to this fund based on the employees who are home-funded here.

C. Excess of expenditures over appropriations

As of December 31, 2019, there has been no material violation of finance related legal or contractual provisions in any City governmental fund.

3. Deposits and investments

Deposits

The City's deposits and certificates of deposit are entirely covered by the Federal Depository Insurance Commission (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the Washington State Public Deposit Protection Commission (PDPC). The FDIC insures the City's deposits up to \$250,000; the PDPC covers amounts in excess of \$250,000.

Investments

The City invests excess and inactive funds, in accordance with City Investment Policy and Washington State statute, RCW 35A.40.060. The government utilizes a pooled investment concept for all its funds to maximize its investment program. Investments are valued at fair value as of December 31, 2019 and investments with a purchase life of less than one year are reported at cost.

The City invests with the Washington State Local Government Investment Pool (LGIP), administered by the Office of the State Treasurer, authorized under RCW Chapter 43.250. The LGIP's investment objectives are, in priority order: safety of principal, maintaining adequate liquidity to meet cash flows, and providing a competitive interest rate relative to other comparable investment alternatives. The LGIP offers 100% liquidity to its participants. The fair value of the position in the LGIP is the purchase price and is reported on the balance sheet as *cash and cash equivalents*.

Interest rate risk

Interest rate risk is the risk that changes in interest rates over time may adversely affect the fair value of an investment. To minimize risk of loss arising from interest rate fluctuations, the City purchases a combination of short and longer term investments, normally not to exceed five years, and staggers their maturities. The City intends to hold securities, bonds and certificates of deposits until maturity.

Credit risk

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City invests primarily in U.S. government debt securities which are considered the safest fixed-income investments available, and Municipal Bonds that hold one of the three highest credit ratings of a nationally recognized rating agency as directed by, and in compliance with, state law. The U.S government debt securities include government sponsored agency securities with implicitly guaranteed federal government backing.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Per the City's Investment Policy, the City diversifies its investments by security type and institution with no more than 50% of the City's total investment portfolio invested in a single security type or with a single financial institution.

Foreign currency risk

The City does not have any investments in foreign currency and accordingly is not exposed to foreign currency risk.

Custodial credit risk

Custodial credit risk is the risk that in the event of a failure of the counterparty to an investment transaction the City will not be able to recover the value of the investment or collateral securities. For this reason, per the City's Investment Policy, all security transactions, including collateral for repurchase agreements, entered into by the City of Bellingham are conducted on a delivery-versus-payment (DVP)

basis and are held in Safekeeping with U.S. Bank. All of the City's investments are insured or registered in the name of the City or held by the City or its agent in the City's name.

Municipal Bonds	90,432
Total investments	1,726,270
Total deposits and investments	\$ 2,166,445

The City measures and reports investments at fair value using the valuation input hierarchy established by generally accepted accounting principles, as follows:

- Level 1 inputs: quoted prices in active markets for identical assets.
- Level 2 inputs: quoted market prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable.

- Level 3 inputs: unobservable inputs for an asset or liability.

Fair value hierarchy at December 31, 2019

Investments by fair value level	Quoted prices level 1	Significant observable inputs level 2	Significant unobservable inputs level 3	Totals
U.S. Government Sponsored Agency Securities	\$ -	\$ 199,293,396	\$ -	\$ 199,293,396

Fiduciary funds	Guaranty Deposit
Accounts	\$ 1,163
Total fiduciary	\$ 1,163

5. Property taxes

The Whatcom County Treasurer collects property taxes levied in the County for all taxing authorities.

Property tax calendar	
January 1	Tax is levied and becomes an enforceable lien against properties.
February 14	Tax bills are mailed.
April 30	First of two equal installment payments is due.
May 31	Assessed value of property is established for the following year's levy at 100 percent of market value.
October 31	Second of two equal installment payments is due.

Property tax is recorded as a receivable and revenue when levied. Property tax collected in advance of the fiscal year to which it applies is recorded as a deferred inflow and recognized as revenue of the period to which it applies. No allowance for uncollectible tax is established because delinquent taxes are considered fully collectible. Prior year tax levies were recorded using the same principal, and delinquent taxes are evaluated annually.

Washington State Constitution and Washington State law, RCW 84.52.043, limit the regular levy rate to 1% of the total fair market value within the district and a combined \$5.90/1000 of other local regular levies. If the \$5.90 limit is exceeded, then levies will be prorated in a prearranged order per RCW 84.52.010.

State law authorizes the City to levy up to \$3.60/\$1,000 of assessed value for general governmental services, plus an additional \$.225/\$1,000 for the fire fighter's pension fund.

The total assessed valuation of the City of Bellingham for 2019 was \$12,187,330,648. The City's regular levy rate was \$1.462/\$1,000, for a total regular levy of \$17,819,871.

Special levies approved by the voters are not subject to the same statutory limitations. For 2019, voters authorized an additional special levy rate of \$.745/\$1,000, totaling \$9,080,468.

Property tax levies 2019			
Purpose of Levy	Type	Rate/\$1,000	Tax
General fund	regular levy	1.2527868875	\$ 15,268,128

7. Interfund receivables, payables and transfers

Loans between funds are classified as interfund loans receivable and payable on the statement of net position. All loans between funds must be authorized by City Council with specific repayment terms at a reasonable interest rate.

Due to other funds and due from other funds result from goods issued, work performed, or services rendered to or for the benefit of another fund of the same government when cash is not immediately moved between the funds.

The following schedule shows the interfund loans receivables and loans payables as well as the due to and due from other funds balances. All interfund loans and due to and from balances are expected to be repaid within a year unless other terms are specifically established as noted below.

Interfund balances at December 31, 2019				
	Interfund loans receivable	Interfund loans payable	Due from other funds	Due to other funds
General	\$ -	\$ 1,255,072	\$ 121,922	\$ -
Nonmajor governmental	1,255,072	-	67,684	31,342
Water	-	-	173,000	62,652
Surface and stormwater	-	-	-	173,000
Nonmajor enterprise	-	-	-	95,612
Total government-wide	<u>\$ 1,255,072</u>	<u>\$ 1,255,072</u>	<u>\$ 362,606</u>	<u>\$ 362,606</u>

Internal balances between governmental activities and business type activities \$ 158,264

Greenways Endowment fund made a \$3,232,022 loan to the *Greenways III fund* in 2011 for a land purchase. In 2013, the Chuckanut Community Forest Park District was formed by voter approval for the express purpose of paying off the *Greenways III fund* loan (Interlocal Agreement 2013-0624). The District has levied a property tax of \$0.28 per thousand dollars of assessed valuation to repay the Greenways Endowment fund for this land purchase. The loan is scheduled to be repaid over ten years, beginning in 2014. The loan repayment is based on a variable rate of interest equal to the current rate of return on investments not to exceed 3% annually. In addition, the Chuckanut Community Forest Park District's payment increases from 50% to 90% of the tax levy received over the first three years of the agreement. There is \$1,255,072 remaining on this loan at year-end, and of that amount an estimated \$743,311 will not be repaid in 2020.

Transfers in/out include transfers to support the operations of other funds, contributions to the capital of enterprise or internal service funds and transfers to establish or reduce working capital in funds.

Transfers at December 31, 2019

	Transfers In	Transfers Out							
		General	Nonmajor Governmental	Water	Wastewater	Surface & Stormwater	Solid Waste	Nonmajor Enterprise	Internal Service

8. Operating leases

The City leases radio towers, urban village library space, off-site data servicing facilities, fiber optics, office spaces, storage units, office equipment including photocopiers, postage machines, and scanners under operating lease agreements. Operating leases do not give rise to property rights or lease obligations and therefore the results of the lease agreements are not reflected in the City's statement of net position. Operating lease expenditures for 2019 totaled \$555,674. The future minimum lease payments for non-cancelable leases are as follows:

Future minimum lease payments at December 31, 2019

2020	\$ 422,189
2021	192,671
2022	131,146
2023	119,139
2024	102,703
Total	<u>\$ 967,848</u>

9. Capital construction commitments

The City has outstanding contractual commitments, which include construction and engineering contracts for capital projects currently in progress. The City's total outstanding contract obligations are summarized as follows:

Construction commitments as of December 31, 2019

	Spent to date	Remaining commitment
Street projects	\$ 9,141,875	\$ 3,448,867
Parks projects	5,258,303	553,902
Water projects	158,262	2,028,596
Wastewater projects	1,397,973	1,268,240
Stormwater projects	1,573,164	389,394
	<u>\$ 17,529,577</u>	<u>\$ 7,688,999</u>

Street projects are financed through sales tax revenue, transportation impact fees and grants. Parks projects are financed through REET revenue, greenway levies, park impact fees and grants. Water, wastewater and stormwater projects are financed through utility revenues, bonds, loans (EDI, DOE) and grants.

10. Long-term debt

General obligation bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the government. The City has issued general obligation bonds to finance improvements in over 20 City buildings to reduce energy consumption, acquisition of the Sportsplex building, improvements to the Civic Field Stadium, construction of the Whatcom Art and Children's Museum, renovations to Mount Baker Theater, pollution remediation activities, and refunding of previously issued bonds. General obligation bonds have been issued for both governmental and business-type activities and are being repaid from the applicable resources. The 2011 QEC bond is being repaid by the *Facilities Administration fund*. The City's portion of the 2012 LTGO Refunding bond is being repaid by general governmental revenue sources and the *PFD* is repaying its portion of the bond, per the Financing Agreement. The *PFD* is also repaying the 2016 LTGO Refunding bonds. The 2014 LTGO bonds are being repaid by the *Solid Waste fund*.

As of December 31, 2019, the City has \$3,787,365 available in debt service funds and \$9,450 in the *Facilities Administration fund* to service the general bonded debt.

Revenue bonds

The City has issued revenue bonds to finance the acquisition and construction of improvements to capital assets relating to improving the water/wastewater system, and the refunding of previously issued revenue bonds. These assets include real property purchased in the Lake Whatcom Watershed in order to preserve water quality, improvements to the City's water supply/distribution system and wastewater collection/disposal system, expansion of and improvements to Post Point Wastewater Plant, construction of a 3.5 million gallon reservoir with offsite piping, and pipeline replacements. When issuing revenue bonds, the City pledges future income derived from the acquired or constructed assets to pay the debt service.

Revenue bonds outstanding December 31, 2019

2035-2039	15,040,000	5,826,313	20,866,313
2040-2043	14,890,000	1,804,016	16,694,016
Total	<u>\$ 58,736,000</u>	<u>\$ 41,188,311</u>	<u>\$ 99,924,311</u>

The revenue bonds listed above will be repaid solely from water/wastewater system net income and are payable through 2043. The total principal and interest remaining to be paid on the bonds is \$99,924,311. Principal and interest expense for the current year and total net available income were \$4,115,862 and \$29,098,795, respectively.

To service revenue bond debt, \$4,189,743 is available in the reserve accounts of the *Water* and *Wastewater* enterprise funds as of December 31, 2019 in compliance with applicable bond covenants.

Water and Sewer revenue bond covenants require that revenue available for debt service (defined as operating and nonoperating revenues less expenses requiring payment to outside entities) exceed the annual debt payment of both principal and interest by a ratio of 1.25 times the maximum annual debt service (see statistical section). The City complies with bond covenants, with a current ratio coverage of

7.07%. There are numerous limitations and restrictions contained in the various bond indentures. The City is in compliance with all debt covenants.

In proprietary funds, unamortized debt issue costs for insurance are recorded as an asset and bonds are displayed net of premium or discount; annual interest expense is decreased by amortization of debt premium and increased by the amortization of debt issue costs and discount.

All bond issues comply with arbitrage regulations as verified by an outside consultant. Five-year reports are prepared as required.

Notes payable

The City is liable for a note that was entered into for the purchase the Big Rock Garden Nursery property. This note is considered an obligation of the general government and is being repaid from general governmental revenue sources.

Government loans

The City has received government loans to provide for construction of capital projects. The City's current loan agreements are with the Public Works Trust Fund (PWTF) through Washington State Department of Community Development, Economic Development Investment (EDI) program through Whatcom County, Washington State Water Pollution Control Revolving Fund through the Department of Ecology (DOE), Office of Safe Drinking Water through the Department of Health (DOH) and the Washington State Certificate of Participation (COP) program.

The governmental activity loans are obligations of the general government and will be paid with general governmental revenue sources. The business-type activity loans will be paid from the applicable proprietary fund. The business-type PWTF loan and the DOH loan are being repaid from the *Water fund*. The *Surface and Stormwater fund* is repaying five DOE loans and one EDI loan. The *Wastewater fund* will be repaying one DOE loan.

The following table is a summary of the changes in long-term liabilities for the year ended December 31, 2019. The portion of the long-term debt due within one year is noted in the table on the far right and is broken out on the Statement of Net Position from the rest of the long-term debt balance. The City of Bellingham did not enter into any short-term debt activity during the year nor does it have any short-term debt outstanding at year-end.

Internal service funds predominantly serve the governmental funds. Accordingly, long-term and short-term liabilities are included as part of the above totals for governmental activities. At year-end, long-term liabilities of \$63,518 and short-term liabilities of \$510,042 for internal service fund compensated absences are included in the above amounts. For the governmental activities, compensated absences are generally liquidated by the *General fund*.

The *General fund* is responsible for ensuring that each pension fund has adequate cash to pay their pension benefit obligations, OPEB benefit obligations, and administrative expenses each year. Governmental activities for claims and litigation and pollution remediation are also financed through General fund revenues.

Pollution remediation in business-type activities is financed by *Solid Waste fund* revenues.

Discretely presented component units***Bellingham-Whatcom Public Facilities District***

The *PFD* entered into an agreement with the City of Bellingham to borrow funds from the City's 2004 LTGO PFD/Civic/Aquatic refunding bond. Of the total \$16,375,000 bond issue, \$9,370,000 was for the *PFD* to fund the construction of the Whatcom Art and Children's Museum. In 2012 the City of Bellingham advanced refunded the 2004 LTGO bond with the issuance of the 2012 LTGO Refunding bond. The *PFD* pays the debt service costs on its portion of the bond. The *PFD* portion of the bond matures in 2026. The City made a contingent loan commitment for these bonds per contract 2007-0552. The contingent loan commitment established in contract 2007-0552 was superseded with interlocal financing agreement 2016-0268 between the City and the *PFD* in 2016.

The *PFD* entered into an agreement with the City of Bellingham in 2008 to borrow \$2,800,000 for the purpose of funding the construction of the Whatcom Art and Children's Museum. This loan had a 10-year term with interest only payments for the first five years. In 2010, the *PFD* made an unscheduled \$1,000,000 principal payment, reducing the outstanding principal amount to \$1,800,000. In 2013 the loan was restructured, setting an interest rate of 3.25% and extending the loan term to mature on December 31, 2027.

The *PFD* issued a limited sales tax obligation bond in the amount of \$9,995,000 on December 20, 2007. The issue funded a portion of the construction cost of the Whatcom Art and Children's Museum, a portion of the cost of phase II renovations to the Mount Baker Theatre as part of the regional center owned and operated by the *PFD*, and issue costs of the bonds. On April 20, 2016, these bonds were refunded by the City of Bellingham and reissued as LTGO debt of the City of Bellingham with a new interlocal bond agreement between the City and the *PFD* establishing new repayment terms. These bonds are financed by state sales tax rebate revenue and will mature in 2027.

Summary of changes in long-term liabilities for the year ended December 31, 2019

Debt type	Beginning balance	Additions	Reductions	Ending balance	Due in ≤ 1 year	Due in > 1 year
Bonds	\$ 15,999,376	\$ -	\$ (1,251,769)	\$ 14,747,607	\$ 1,363,886	\$ 13,383,721
Total long-term liabilities	\$ 15,999,376	\$ -	\$ (1,251,769)	\$ 14,747,607	\$ 1,363,886	\$ 13,383,721

11. Restricted component of net position

The government-wide statement of net position reports \$165,700,653 of restricted component of net position, of which \$85,394,145 is restricted by enabling legislation.

12. Risk management

The City is exposed to various risks of losses related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The City has established four risk management internal service funds to account for and finance general liability, property damage, and risks to employee health and welfare. The City's four funds are *Claims and Litigation*, *Unemployment Compensation*, *Workers' Compensation*, and *Health Benefits*.

The risk management internal service funds are funded by charges to the City's other funds and are based primarily upon the contributing funds' claims experience. Liabilities of the fund are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities include amounts for claims that have been incurred but not reported. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as, inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expense regardless of whether allocated to specific claims.

The *Claims, Litigation and Property Loss fund* is the source for payment of third-party claims and judgments, excess liability insurance premiums, and property insurance premiums. Currently the City maintains commercial property insurance for fire and other hazards on City properties. During the current and preceding two years, no City property losses exceeded the City's insurance coverage.

The City purchases excess liability insurance with a \$1 million retained self-insurance limit and \$15 million in policy limits. The City Council has established by Ordinance No. 2002-03-018 a goal of \$5 million as the minimum amount to be made available to cover losses.

In the normal course of its various operations, the City of Bellingham is involved in lawsuits and receives claims for damages alleging City responsibility for damage incurred by third parties. Claims and/or litigation arise in such areas as police civil liability (false arrest), street and sidewalk design and/or maintenance, utility maintenance, zoning, building and other land-use regulations, equipment operation and other areas. These claims or lawsuits are a natural consequence of conducting the City's business. The City of Bellingham self-insures to cover most of its liability risk as reflected in the retained self-insurance limit.

The *Unemployment Compensation fund* is the source for collecting contributions and making payments to reimburse the State of Washington Employment Security Department, on a quarterly basis, for unemployment compensation claims paid to former employees. State statutes mandate that most other employers pay a tax on employed compensation to support the unemployment insurance system. The City budgets contribution rates to each department based upon past experience and expected future claims.

The *Worker's Compensation fund* is the source for collecting contributions and making payments towards employee injury claims and other related costs. The City's workers compensation program is self-insured and follows specific guidelines established by the State of Washington. Claims are administered by a third party and the program has reinsurance with a \$550,000 per occurrence deductible. Premiums are assessed to City departments based upon the number of hours worked by covered employees. Rates are based on an internal formula derived from Washington State standard rates and are revised annually to generate revenues sufficient to cover anticipated expenditures and provide a reserve for incurred but unreported future expenses.

The Health Benefits fund is the source for collecting contributions and paying premiums for employee medical, dental, and vision benefits. Both the City and employee contribute to the cost of medical insurance premiums. The City alone contributes towards dental insurance and a self-insured vision plan for full time employees. City departments are charged composite rates to cover the cost of insurance premiums and plan contributions for each employee. Insurance for employees is purchased through employee unions and City Sponsored benefit plans. The Association of Washington City's Employee Benefit Trust is one of the third-party administrators the City uses to purchase insurance and administer plans.

Health and Welfare

The City is a member of the Association of Washington Cities Employee Benefit Trust Health Care Program (AWC Trust HCP). Chapter 48.62 RCW provides that two or more local government entities may, by Interlocal agreement under Chapter 39.34 RCW, form together or join a pool or organization for the joint purchasing of insurance, and/or joint self-insurance, to the same extent that they may individually purchase insurance, or self-insure.

An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The AWC Trust HCP was formed on January 1, 2014 when participating cities, towns, and non-city entities of the AWC Employee Benefit Trust in the State of Washington joined together by signing an Interlocal Governmental Agreement to jointly self-insure certain health benefit plans and programs for participating employees, their covered dependents and other beneficiaries through a designated account within the Trust.

As of December 31, 2019, 261 cities/towns/non-city entities participate in the AWC Trust HCP.

The AWC Trust HCP allows members to establish a program of joint insurance and provides health and welfare services to all participating members. The AWC Trust HCP pools claims without regard to individual member experience. The pool is actuarially rated each year with the assumption of projected claims run out for all current members. The AWC Trust HCP includes medical, dental and vision insurance through the following carriers: Kaiser Foundation Health Plan of Washington, Kaiser Foundation Health Plan of Washington Options, Inc., Regence BlueShield, Asuris Northwest Health, Delta Dental of Washington, and Vision Service Plan. Eligible members are cities and towns within the state of Washington. Non-City Entities (public agency, public corporation, intergovernmental agency, or political subdivision within the state of Washington) are eligible to apply for coverage into the AWC Trust HCP, submitting application to the Board of Trustees for review as required in the Trust Agreement.

Participating employers pay monthly premiums to the AWC Trust HCP. The AWC Trust HCP is responsible for payment of all covered claims. In 2019, the AWC Trust HCP purchased stop loss insurance for Regence/Asuris plans at an Individual Stop Loss (ISL) of \$1.5 million through Commencement Bay Risk Management, and Kaiser ISL at \$1 million with Companion Life through ASG Risk Management. The aggregate policy is for 200% of expected medical claims.

Participating employers contract to remain in the AWC Trust HCP for a minimum of three years. Participating employers with over 250 employees must provide written notice of termination of all coverage a minimum of 12 months in advance of the termination date, and participating employers with under 250 employees must provide written notice of termination of all coverage a minimum of 6 months in advance of termination date. When all coverage is being terminated, termination will only occur on December 31. Participating employers terminating a group or line of coverage must notify the AWC Trust HCP a minimum of 60 days prior to termination. A participating employer's termination will not obligate that member to past debts, or further contributions to the AWC Trust HCP. Similarly, the terminating member forfeits all rights and interest to the AWC Trust HCP Account.

The operations of the Health Care Program are managed by the Board of Trustees or its delegates. The Board of Trustees is comprised of four regionally elected officials from Trust member cities or towns, the Employee Benefit Advisory Committee Chair and Vice Chair, and two appointed individuals from the AWC Board of Directors, who are from Trust member cities or towns. The Trustees or its appointed delegates review and analyze Health Care Program related matters and make operational decisions regarding premium contributions, reserves, plan options and benefits in compliance with Chapter 48.62 RCW. The Board of Trustees has decision authority consistent with the Trust Agreement, Health Care Program policies, Chapter 48.62 RCW and Chapter 200-110-WAC.

The accounting records of the AWC Trust HCP are maintained in accordance with methods prescribed by the State Auditor's office under the authority of Chapter 43.09 RCW. The AWC Trust HCP also follows applicable accounting standards established by the Governmental Accounting Standards Board ("GASB"). In 2018, the retiree medical plan subsidy was eliminated, and is noted as such in the report for the fiscal year ending December 31, 2018. Year-end financial reporting is done on an accrual basis and submitted to the Office of the State Auditor as required by Chapter 200-110 WAC. The audit report for the AWC Trust HCP is available from the Washington State Auditor's office.

Changes in estimated claims liabilities

	Claims and Litigation		Unemployment Comp		Workers' Comp	
	2018	2019	2018	2019	2018	2019
Beginning liability	\$ 455,767	\$ 525,000	\$ 160,000	\$ 84,900	\$ 550,000	\$ 341,482
Claims incurred	321,551	570,503	(77,063)	65,336	(47,775)	288,003
Claims paid	(252,318)	(415,436)	1,963	(69,559)	(160,743)	(302,223)
Ending liability	<u>\$ 525,000</u>	<u>\$ 680,067</u>	<u>\$ 84,900</u>	<u>\$ 80,677</u>	<u>\$ 341,482</u>	<u>\$ 327,262</u>

It is management's opinion, that the City's insurance policies and self-insurance are adequate to pay all known or pending claims.

13. Contingencies

Cleanup contingencies - The City of Bellingham (the City) has been named as a potentially liable person (PLP) (as that term is defined in the Model Toxics Control Act) by the Washington State Department of Ecology (DOE) with respect to several cleanup sites. Cleanup at these sites is in a variety of stages, from investigation to post-construction monitoring and maintenance. For most of these sites, the City is eligible for, and has received or hopes to receive, 50% matching funds from DOE for the cleanups. At several of the sites, the City is not the only PLP and is in, or plans to be in, negotiation with the other PLPs as to each party's responsibility to fund the remedial actions. The City has issued two general obligation bonds for the City's share of remediation costs to be repaid primarily by net revenues from the *Solid Waste fund*. These revenues are generated principally by tax revenues paid by the City's solid waste contractor. The *Solid Waste fund's* projected cash flow indicates sufficient net revenue to repay the existing estimated principal and interest costs over a twenty-year period. See Note 14 for additional detail about the current estimated costs.

Grant contingencies - The City participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. There are no known or estimated liabilities as the result of these audits as of year-end.

14. Pollution remediation obligations

The City records pollution remediation obligations as a liability. The City accounts for remediation activity in both proprietary and governmental funds. The City's future remediation obligations are reviewed and updated at the end of each year to reflect current year activity and to revise estimates of future obligations. All sites are overseen by the Washington State Department of Ecology. The City has been named as a potentially liable person (PLP) by the Washington State Department of Ecology for each of the five sites listed below. To determine the City's remediation liability, project estimates were used from engineers and other remediation specialists. In each case, legal and finance staff determined that a single project option was the best representation of the City's future liability. The City expects to receive up to half of the cost of all environmental remediation costs from the State of Washington through the issuance of Department of Ecology local cleanup grants. These grants are issued on a biennial basis with each grant being awarded following the issuance of a cleanup order from the Department of Ecology. These grants are not recognized by the City until they are received and accordingly the estimates of the future pollution remediation obligation costs are not reduced by the anticipated grant amounts.

As projects move from the feasibility stage to the cleanup action plan phase and on to design phase and/or when the City receives updated cost-forecast estimates from consultants for remediation sites, the estimated pollution remediation obligation balances are updated to reflect the revised estimates. The pollution remediation obligation is an estimate subject to changes resulting from price increases or reductions, technology, and changes in applicable laws and regulations.

This schedule reflects the estimated pollution remediation obligations for the five named sites as of December 31, 2019:

Estimated pollution remediation obligations		
---	--	--

Site	Governmental activities	Business-type activities
South State Street Manufacturing Gas Plant (f.k.a Boulevard Park)	\$ 9,330,000	\$ -
Cornwall Avenue Landfill Site	-	11,238,768
RG Haley Site	15,720,000	-
Eldridge Avenue Municipal Landfill	-	141,942
Central Waterfront	-	2,763,708
Total	\$ 25,050,000	\$ 14,144,418

In 2005, the City and the Port of Bellingham (the Port) entered into an agreement to clean up the Central Waterfront and Cornwall sites and the City prefunded its share of that original estimate by paying the Port \$3.7 million upfront. Of this \$3.7 million prepayment, \$1.44 million was allocated to Cornwall and \$2.26 million was allocated to Central Waterfront. As of December 31, 2019, total accumulated expenses for these sites have exceeded the prepayment amount by \$257,990, and the City no longer reports a prepaid asset.

South State Street Manufactured Gas Plant site (SSMGP) – Remediation is required to clean up contamination from the use of this site for the manufacturing of gas from coal. The current estimated cost of remediation is \$9.3 million based on a draft feasibility study prepared by GeoEngineers. The City is negotiating for financial contributions from other potentially liable persons. A final RI/FS was issued in January 2019.

Cornwall Avenue Landfill site – Remediation is required to clean up contamination from the use of this site as a landfill for solid waste. In 2005, the City and the Port of Bellingham entered into an agreement to clean up this site. A RI/FS was prepared and issued for the Cornwall Avenue Landfill Site in December 2013. The Consent Decree for the Cornwall Avenue Landfill Site was signed in December 2014 and dictates the cleanup that will be constructed. Anchor QEA consulting provided the City (and the Port, another PLP) with a revised report of the estimated cost-forecasts as of December 31, 2019. The Cornwall Avenue Landfill site estimated costs have increased since the issuance of the RI/FS in 2013 after taking into account an escalation rate inflator and adding additional project contingency costs and the completion of 30% design in the 2019 Engineering and Design Report. The balance of the City's pollution remediation obligation related to the Cornwall Avenue Landfill site is \$11.2 million.

RG Haley site – Remediation is required to clean up contamination from the use of this site as a wood treatment facility and from cross contamination from garbage landfill activities on the adjacent property, which is part of the Cornwall Avenue Landfill Site. A final RI/FS was prepared and issued for RG Haley on February 1, 2016, and a final Cleanup Action Plan was issued in April 2018. The estimated pollution remediation obligation for the RG Haley site is \$15.7 million.

Eldridge Avenue Municipal Landfill – Remediation was required to clean up contamination from the use of this site as a landfill for garbage. Construction of the cleanup is complete. Monitoring and maintenance activities pursuant to the Consent Decree are the remaining remediation obligations. The year-end estimate for those activities as of December 31, 2019, is \$141,942.

Central Waterfront – Remediation is required to clean up contamination from the use of this area as a landfill for solid waste, as well as other contaminants from adjoining sites, which were consolidated with the City's Roeder Avenue Landfill Site by Ecology. The Central Waterfront pollution remediation obligation was decreased compared to the prior year estimate due to the identified preferred alternative selected

in the RI/FS for site cleanup in the upland region, which was issued in 2018. Updated cost estimates are based on forecasts prepared by Anchor QEA consulting as of December 31, 2019. The pollution remediation obligation estimate is \$2.8 million for Central Waterfront.

15. Interlocal agreements

Whatcom Medic One

In November 2005, Whatcom County voters approved a ballot proposition authorizing the County to collect 1/10th of one percent sales tax for the purposes of supporting countywide emergency medical and law enforcement services. One-third of this tax remains with the county/cities for law enforcement and two-thirds of this tax is remitted to the County to be used for countywide emergency medical services. The City of Bellingham has a contract with the County to provide ambulance service in certain areas of the county.

What-Comm/Prospect Communications Center

The City of Bellingham participates with Whatcom County and other local governmental jurisdictions to provide two communication centers; the first is for law enforcement and is the primary public safety answering point. The other is for fire and emergency medical services and serves as the secondary public safety answering point. Each center is capable of providing back up support for the other.

City police department personnel operate "What-Comm Communications Center" and administration of this center is the responsibility of the Bellingham Police Chief. City fire department personnel operate "Prospect Communications Center" and administration of this center is the responsibility of the Bellingham Fire Chief. The City is responsible for maintaining records and statistics regarding the two operations.

The City operates and manages the communications centers under advisement of an administrative board composed of eight voting members and one nonvoting member. The administrative board has the authority to establish broad policy guidelines and establishes the annual financial contributions to be made by the member jurisdictions. In 2019, the City contributed \$1,122,183 to the Public Safety Dispatch fund as its share of operations, approximately 18% of total revenues.

Waterfront redevelopment

The Bellingham City Council and the Port of Bellingham's Board of Commissioners approved a package of Waterfront District Master Plan documents and related development agreements in December 2013. These documents include the Waterfront District Sub-Area Plan, Design Standards, Development Regulations, Development Agreement, Planned Action Ordinance, and the Interlocal Agreement for Facilities. The Port and City acknowledge that redeveloping the Waterfront District in conformance with the Master Plan will require facilities. The Port's and City's obligations for providing such facilities and the phasing of such facilities are based on a set of triggers that are set forth in the Interlocal Agreement for Facilities. The Port and the City have agreed to jointly prioritize and pursue outside funding assistance from federal, state, and other sources.

Lake Whatcom Management Program (LWMP) and Aquatic Invasive Species (AIS)

The City of Bellingham, Whatcom County, and the Lake Whatcom Water and Sewer District (LWWS) came together in 1998 to formalize, by interlocal agreement, the Lake Whatcom Management Program. The goal of the program is to improve lake water quality by jointly implementing programs affecting the Lake Whatcom Watershed. In 2010 the LWMP 2010-2014 work plan was adopted which included several capital projects all three entities committed to completing. In this timeframe the Aquatic Invasive Species (AIS) Prevention Program was also launched as a joint program funded by LWWS, Whatcom County, the City, and program fees. The City, County, and LWWS have all agreed through the interlocal agreement to commit funds towards land preservation, stormwater management, land use, education and engagement, monitoring and data, hazardous materials mitigation, recreation, AIS, utilities and

transportation, and administration. The 2015-2019 work plan cost estimates for the LWMP included contributions totaling \$45.7 million between the City, County, and LWWSD over the five-year period.

In 2019 the City contributed \$128,585 towards the AIS program, LWWSD contributed \$50,000, the County contributed \$123,000, and programs revenues were \$155,771.

Fire District No. 8

Whatcom County Fire Protection District No. 8 is a distinct municipal entity and is not a component unit of the City.

In 2016, Whatcom County Fire Protection District No. 8 and the City of Bellingham entered into a new interlocal agreement, 2016-0336, for the provision of fire and emergency medical services (EMS). The parties have a long-term relationship for providing mutual and automatic aid in the delivery of fire and EMS and wish to evaluate consolidation options, and if appropriate, plan for a longer-term consolidation, including consideration of a Regional Fire Authority.

In 2019, Fire District No. 8 paid the City \$1,398,550 for providing these services.

Park Districts Loan

The Chuckanut Community Forest Park District (Park District) is a distinct municipal entity with its own assets, liabilities, and board of commissioners. This entity was created on February 12, 2013, when voters in a southern portion of the City approved a ballot measure to create the Chuckanut Community Forest Park District. The Park District taxes property owners within its boundaries to repay the loan from the *Greenways Endowment fund* in exchange for a conservation easement ensuring the entirety of the property purchased with the original loan is protected in perpetuity in public ownership. The property will be protected with the conservation easement with respect for its ecological, recreational and educational functions. The Park District is not a component unit of the City.

The specific terms and conditions of the loan repayment are included in Interlocal agreement #2013-0624 which was signed at the end of 2013. In this agreement the Park District agreed to begin making payments to the City to pay off the loan of \$3,232,022, \$100,335 of accrued interest on the loan through June 30, 2014, and future interest on the loan after June 30, 2014. The District has levied a \$0.28 per thousand dollars of assessed valuation to repay the *Greenways Endowment fund* for this land purchase. The Park District made principal payments of \$511,761 in 2019. As of December 31, 2019, the loan balance is \$1,255,072.

16. Endowments

Greenways Maintenance Endowment fund – This endowment was created internally by ordinance 1998-02-004. In November 1997, the voters passed a ballot issue to levy increased property taxes in the amount of \$20 million over nine years to provide funds for continuing acquisition, improvement and maintenance of current and future open space, greenways, parks, athletic fields, recreation facilities, trails and wetlands. The City created two funds to account for this levy. The first was the *Beyond Greenways fund* with 90% of the levy property tax receipts to be used for acquisition and development/improvement of property. The other 10% of the property tax levy receipts and interest earnings were allocated into the *Beyond Greenways Endowment fund*. The money allocated to this fund was not yet needed for operational purposes. Additionally, any principal donations that are intended to be kept in a nonexpendable trust are also put in the *Beyond Greenways Endowment fund*.

On May 16, 2006, the voters passed a ballot authorizing the City to increase its regular property tax levy in 2007 to \$2.49 per thousand (which included \$0.057 per thousand from the beyond greenways levy) of

assessed valuation on all taxable property within the City. The ballot specified increases in 2008 and each of the nine succeeding years as allowed by RCW 84.55 to be used for the costs of parks, greenways, trails, and open space property acquisition, development, and maintenance. The City created the *Greenways III fund* with ordinance 2007-01-004 to account for the property tax levy receipts. These receipts are to be used for acquisition and development/improvement of property.

Ordinance 2007-04-034 changed the name of the *Beyond Greenways Endowment fund* to *Greenways Maintenance Endowment fund* and expanded the scope of the fund to include maintenance activities for properties acquired or developed with any greenway levy funding. This ordinance also set aside 9% of the greenways III levy to the endowment fund.

The interest earned within the *Greenways Maintenance Endowment fund* is transferred when needed. It helps pay for parks and recreation department maintenance of properties acquired and developed with Greenway levy funding.

As of December 31, 2019, a total of \$5,939,391 in property taxes and donations has been receipted into the endowment fund and is nonspendable. All interest earned in this fund has been spent.

Natural Resources Protect and Restore fund – As a result of the 1999 Olympic Pipeline disaster, an agreement was reached in December 2003 between the City of Bellingham and the Washington State Department of Ecology establishing an endowment fund to be used solely for (a) the purchase of conservation easements, or (b) restoration of damaged ecological processes. Ordinance 2004-01-001 incorporated the agreement and its governing rules and regulations. The \$4.0 million endowment was received December 16, 2003.

According to the terms of the agreement, the corpus (or original lump payment received) cannot be expended for 50 years. Only the interest earned by that corpus or any other outside revenues received (such as donations) may be expended for (a) or (b) as defined above. As of December 31, 2019, \$870,888 is available to spend.

The fund balance of the endowment fund is reflected in the governmental portion of the statement of net position and the statement of activities. Washington State authorizes the spending of net appreciation on investments of endowments in RCW 24.44.020. Investments for the endowment funds meet the same criteria as other City funds. The City's investment risk is described in Note 3.

17. Pension plans**Aggregate pension amounts for state and local pension plans as of 12/31/2019**

Pension liabilities	\$ 20,241,949
Pension assets	\$ 26,122,528
Deferred outflows of resources	\$ 7,454,088
Deferred inflows of resources	\$ 17,107,403
Pension expense/expenditures	\$ 2,249,604

A. State Sponsored Pension Plans

Substantially all City full-time and qualifying part-time employees participate in one of the following statewide retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing, multiple-employer public employee defined benefit and defined contribution retirement plans. The state Legislature establishes, and amends, laws pertaining to the creation and administration of all public retirement systems.

The Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for each plan. The DRS CAFR may be obtained by writing to:

Department of Retirement Systems
Communications Unit
P.O. Box 48380
Olympia, WA 98540-8380

Or the DRS CAFR may be downloaded from the DRS website at www.drs.wa.gov.

Public Employees' Retirement System (PERS)

PERS members include elected officials; state employees; employees of the Supreme, Appeals and Superior Courts; employees of the legislature; employees of district and municipal courts; employees of local governments; and higher education employees not participating in higher education retirement programs. PERS is comprised of three separate pension plans for membership purposes. PERS plans 1 and 2 are defined benefit plans, and PERS plan 3 is a defined benefit plan with a defined contribution component.

PERS Plan 1 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member's average final compensation (AFC) times the member's years of service. The AFC is the average of the member's 24 highest consecutive service months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of service, or at age 60 with at least five years of service. Members retiring from active status prior to the age of 65 may receive actuarially reduced benefits. Retirement benefits are actuarially reduced to reflect the choice of a survivor benefit. Other benefits include duty and non-duty disability payments, an optional cost-of-living adjustment (COLA), and a one-time duty-related death benefit, if found eligible by the Department of Labor and Industries. PERS 1 members were vested after the completion of five years of eligible service. The plan was closed to new entrants on September 30, 1977.

Contributions

The **PERS Plan 1** member contribution rate is established by State statute at 6 percent. The employer contribution rate is developed by the Office of the State Actuary and includes an administrative expense component that is currently set at 0.18 percent. Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates. The PERS Plan 1 required contribution rates (expressed as a percentage of covered payroll) for 2019 were as follows:

PERS Plan 1		
Actual Contribution Rates	Employer	Employee*
January – June 2019		
PERS Plan 1	7.52%	6.00%
PERS Plan 1 UAAL	5.13%	
Administrative Fee	0.18%	
Total	12.83%	6.00%
July – December 2019		
PERS Plan 1	7.92%	6.00%
PERS Plan 1 UAAL	4.76%	
Administrative Fee	0.18%	
Total	12.86%	6.00%

** For employees participating in JBM, the contribution rate was 12.26%.*

PERS Plan 2/3 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member's average final compensation (AFC) times the member's years of service for Plan 2 and 1 percent of AFC for Plan 3. The AFC is the average of the member's 60 highest-paid consecutive service months. There is no cap on years of service credit. Members are eligible for retirement with a full benefit at 65 with at least five years of service credit. Retirement before age 65 is considered an early retirement. PERS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older, are eligible for early retirement with a benefit that is reduced by a factor that varies according to age for each year before age 65. PERS Plan 2/3 members who have 30 or more years of service credit and are at least 55 years old can retire under one of two provisions:

- With a benefit that is reduced by three percent for each year before age 65; or
- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

PERS Plan 2/3 members hired on or after May 1, 2013 have the option to retire early by accepting a reduction of five percent for each year of retirement before age 65. This option is available only to those who are age 55 or older and have at least 30 years of service credit. PERS Plan 2/3 retirement benefits are also actuarially reduced to reflect the choice of a survivor benefit. Other PERS Plan 2/3 benefits include duty and non-duty disability payments, a cost-of-living allowance (based on the CPI), capped at three percent annually and a one-time duty related death benefit, if found eligible by the Department of Labor and Industries. PERS 2 members are vested after completing five years of eligible service. Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44.

PERS Plan 3 defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. PERS Plan 3 members choose their contribution rate upon joining membership and have a chance to change rates upon changing employers. As established by statute, Plan 3 required defined contribution rates are set at a minimum of 5 percent and escalate to 15 percent with a choice of six options. Employers do not contribute to the defined contribution benefits. PERS Plan 3 members are immediately vested in the defined contribution portion of their plan.

Contributions

The **PERS Plan 2/3** employer and employee contribution rates are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. The Plan 2/3 employer rates include a component to address the PERS Plan 1 UAAL and an administrative expense that is currently set at 0.18 percent. Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates and Plan 3 contribution rates. The PERS Plan 2/3 required contribution rates (expressed as a percentage of covered payroll) for 2019 were as follows:

PERS Plan 2/3		
Actual Contribution Rates	Employer 2/3	Employee 2*
January – June 2019		
PERS Plan 2/3	7.52%	7.41%
PERS Plan 1 UAAL	5.13%	
Administrative Fee	0.18%	
Employee PERS Plan 3		Varies
Total	12.83%	7.41%
July – December 2019		
PERS Plan 2/3	7.92%	7.90%
PERS Plan 1 UAAL	4.76%	
Administrative Fee	0.18%	
Employee PERS Plan 3		Varies
Total	12.86%	7.90%

** For employees participating in JBM, the contribution rate was 18.53% to 19.75%.*

The City's actual PERS plan contributions were \$1,899,391 to PERS Plan 1 and \$2,933,273 to PERS Plan 2/3 for the year ended December 31, 2019.

Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF)

LEOFF membership includes all full-time, fully compensated, local law enforcement commissioned officers, firefighters, and as of July 24, 2005, emergency medical technicians. LEOFF is comprised of two separate defined benefit plans.

LEOFF Plan 1 provides retirement, disability and death benefits. Retirement benefits are determined per year of service calculated as a percent of final average salary (FAS) as follows:

- 20+ years of service – 2.0% of FAS
- 10-19 years of service – 1.5% of FAS
- 5-9 years of service – 1% of FAS

The FAS is the basic monthly salary received at the time of retirement, provided a member has held the same position or rank for 12 months preceding the date of retirement. Otherwise, it is the average of the highest consecutive 24 months' salary within the last ten years of service. Members are eligible for retirement with five years of service at the age of 50. Other benefits include duty and non-duty disability payments, a cost-of-living adjustment (COLA), and a one-time duty-related death benefit, if found eligible by the Department of Labor and Industries. LEOFF 1 members were vested after the completion of five years of eligible service. The plan was closed to new entrants on September 30, 1977.

Contributions

Starting on July 1, 2000, **LEOFF Plan 1** employers and employees contribute zero percent, as long as the plan remains fully funded. The LEOFF Plan I had no required employer or employee contributions for fiscal year 2019. Employers paid only the administrative expense of 0.18 percent of covered payroll.

LEOFF Plan 2 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the final average salary (FAS) per year of service (the FAS is based on the highest consecutive 60 months). Members are eligible for retirement with a full benefit at 53 with at least five years of service credit. Members who retire prior to the age of 53 receive reduced benefits. If the member has at least 20 years of service and is age 50, the reduction is three percent for each year prior to age 53. Otherwise, the benefits are actuarially reduced for each year prior to age 53. LEOFF 2 retirement benefits are also actuarially reduced to reflect the choice of a survivor benefit. Other benefits include duty and non-duty disability payments, a cost-of-living allowance (based on the CPI), capped at three percent annually and a one-time duty-related death benefit, if found eligible by the Department of Labor and Industries. LEOFF 2 members are vested after the completion of five years of eligible service.

Contributions

The **LEOFF Plan 2** employer and employee contribution rates are developed by the Office of the State Actuary to fully fund Plan 2. The employer rate included an administrative expense component set at 0.18 percent. Plan 2 employers and employees are required to pay at the level adopted by the LEOFF Plan 2 Retirement Board.

Effective July 1, 2017, when a LEOFF employer charges a fee or recovers costs for services rendered by a LEOFF 2 member to a non-LEOFF employer, the LEOFF employer must cover both the employer and state contributions on the LEOFF 2 basic salary earned for those services. The state contribution rate (expressed as a percentage of covered payroll) was 3.44% as of July 1, 2019.

The LEOFF Plan 2 required contribution rates (expressed as a percentage of covered payroll) for 2019 were as follows:

LEOFF Plan 2		
Actual Contribution Rates	Employer	Employee
January – June 2019		
State and local governments	5.25%	8.75%
Administrative Fee	0.18%	
Total	5.43%	8.75%
Ports and Universities	8.75%	8.75%
Administrative Fee	0.18%	
Total	8.93%	8.75%

LEOFF Plan 2		
July – December 2019		
State and local governments	5.15%	8.59%
Administrative Fee	0.18%	
Total	5.33%	8.59%
Ports and Universities	8.59%	
Administrative Fee	0.18%	
Total	8.77%	8.59%

The City's actual contributions to the plan were \$1,712,186 for the year ended December 31, 2019.

The Legislature, by means of a special funding arrangement, appropriates money from the state General Fund to supplement the current service liability and fund the prior service costs of Plan 2 in accordance with the recommendations of the Pension Funding Council and the LEOFF Plan 2 Retirement Board. This special funding situation is not mandated by the state constitution and could be changed by statute. For the state fiscal year ending June 30, 2019, the state contributed \$72,959,897 to LEOFF Plan 2. The amount recognized by the City as its proportionate share of this amount is \$1,121,252.

Actuarial Assumptions

The total pension liability (TPL) for each of the DRS plans was determined using the most recent actuarial valuation completed in 2019 with a valuation date of June 30, 2018. The actuarial assumptions used in the valuation were based on the results of the Office of the State Actuary's (OSA) *2007-2012 Experience Study* and the *2017 Economic Experience Study*.

Additional assumptions for subsequent events and law changes are current as of the 2018 actuarial valuation report. The TPL was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2019. Plan liabilities were rolled forward from June 30, 2018, to June 30, 2019, reflecting each plan's normal cost (using the entry-age cost method), assumed interest and actual benefit payments.

- **Inflation:** 2.75% total economic inflation; 3.50% salary inflation
- **Salary increases:** In addition to the base 3.50% salary inflation assumption, salaries are expected to grow by promotions and longevity.
- **Investment rate of return:** 7.4%

Mortality rates were based on the RP-2000 report's Combined Healthy Table and Combined Disabled Table, published by the Society of Actuaries. The OSA applied offsets to the base table and recognized future improvements in mortality by projecting the mortality rates using 100 percent Scale BB. Mortality rates are applied on a generational basis; meaning, each member is assumed to receive additional mortality improvements in each future year throughout his or her lifetime.

There were minor changes in methods and assumptions since the last valuation.

- OSA updated modeling to reflect providing benefit payments to the date of the initial retirement eligibility for terminated vested members who delay application for retirement benefits.
- OSA updated COLA programming to reflect legislation signed during the 2018 legislative session that provides PERS and TRS Plan 1 annuitants who are not receiving a basic minimum, alternate

minimum, or temporary disability benefit with a one-time permanent 1.5% increase to their monthly retirement benefit, not to exceed a maximum of \$62.50 per month.

Discount Rate

The discount rate used to measure the total pension liability for all DRS plans was 7.4 percent.

To determine that rate, an asset sufficiency test included an assumed 7.5 percent long-term discount rate to determine funding liabilities for calculating future contribution rate requirements. (All plans use 7.5 percent except LEOFF 2, which has assumed 7.4 percent). Consistent with the long-term expected rate of return, a 7.4 percent future investment rate of return on invested assets was assumed for the test. Contributions from plan members and employers are assumed to continue being made at contractually required rates (including PERS 2/3, employers, whose rates include a component for the PERS 1 plan liabilities). Based on these assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.4 percent was used to determine the total liability.

Long-Term Expected Rate of Return

The long-term expected rate of return on the DRS pension plan investments of 7.4 percent was determined using a building-block-method. In selecting this assumption, the Office of the State Actuary (OSA) reviewed the historical experience data, considered the historical conditions that produced past annual investment returns, and considered capital market assumptions and simulated expected investment returns provided by the Washington State Investment Board (WSIB). The WSIB uses the capital market assumptions and their target asset allocation to simulate future investment returns over various time horizons.

Estimated Rates of Return by Asset Class

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2019, are summarized in the table below. The inflation component used to create the table is 2.2 percent and represents the WSIB's most recent long-term estimate of broad economic inflation.

Asset Class	Target Allocation	% Long-Term Expected Real Rate of Return Arithmetic
Fixed Income	20%	2.20%
Tangible Assets	7%	5.10%
Real Estate	18%	5.80%
Global Equity	32%	6.30%
Private Equity	23%	9.30%
	100%	

Sensitivity of the Net Pension Liability/(Asset)

The table below presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.4 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.4 percent) or 1-percentage point higher (8.4 percent) than the current rate.

Plan	1% Decrease 6.40%	Current Discount Rate 7.40%	1% Increase 8.40%
PERS 1	\$ 13,155,714	\$ 10,505,087	\$ 8,205,319
PERS 2/3	\$ 25,983,608	\$ 3,387,869	\$ (15,153,429)
LEOFF 1	\$ (4,273,482)	\$ (5,223,965)	\$ (6,044,617)
LEOFF 2	\$ (3,885,925)	\$ (20,898,563)	\$ (34,784,770)

Pension Plan Fiduciary Net Position

Detailed information about the State's pension plans' fiduciary net position is available in the separately issued DRS financial report.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the City reported a proportionate share of net pension liabilities and assets as follows:

Plan	Liability (Asset)
PERS 1	\$ 10,505,087
PERS 2/3	3,387,869
TOTAL LIABILITY	\$ 13,892,956
LEOFF 1	\$ (5,223,965)
LEOFF 2	(20,898,563)
TOTAL ASSET	\$ (26,122,529)

The amount of the asset reported above for LEOFF Plans 1 and 2 reflects a reduction for State pension support provided to the City. The amount recognized by the City as its proportionate share of the net pension liability asset, the related State support, and the total portion of the net pension liability/(asset) that was associated with the City were as follows:

	LEOFF 1 Asset	LEOFF 2 Asset
Employer's proportionate	\$ 5,223,965	\$ 20,898,563
State's proportionate	35,334,773	13,685,759
TOTAL	\$ 40,558,738	\$ 34,584,322

At June 30, the City's proportionate share of the collective net pension liabilities was as follows:

Plan	Proportionate Share 6/30/2018	Proportionate Share 6/30/2019	Change in Proportion
PERS 1	0.271961%	0.273189%	0.001228%
PERS 2/3	0.338229%	0.348783%	0.010554%
LEOFF 1	0.261836%	0.264289%	0.002453%
LEOFF 2	0.881963%	0.902086%	0.020123%

Employer contribution transmittals received and processed by the DRS for the fiscal year ended June 30 are used as the basis for determining each employer's proportionate share of the collective pension amounts reported by the DRS in the *Schedules of Employer and Nonemployer Allocations* for all plans except LEOFF 1.

LEOFF Plan 1 allocation percentages are based on the total historical employer contributions to LEOFF 1 from 1971 through 2000 and the retirement benefit payments in fiscal year 2019. Historical data was obtained from a 2011 study by the Office of the State Actuary (OSA). In fiscal year 2019, the state of Washington contributed 87.12 percent of LEOFF 1 employer contributions, and all other employers contributed the remaining 12.88 percent of employer contributions. LEOFF 1 is fully funded and no further employer contributions have been required since June 2000. If the plan becomes underfunded, funding of the remaining liability will require new legislation. The allocation method the plan chose reflects the projected long-term contribution effort based on historical data.

In fiscal year 2019, the state of Washington contributed 39.57 percent of LEOFF 2 employer contributions pursuant to [RCW 41.26.725](#) and all other employers contributed the remaining 60.43 percent of employer contributions.

The collective net pension liability (asset) was measured as of June 30, 2019, and the actuarial valuation date on which the total pension liability (asset) is based was as of June 30, 2018, with update procedures used to roll forward the total pension liability to the measurement date.

Pension Expense

For the year ended December 31, 2019, the City's recognized pension expense is as follows:

Plan	Pension Expense
PERS 1	\$ 537,252
PERS 2/3	716,699
LEOFF 1	(314,685)
LEOFF 2	364,009
TOTAL	\$ 1,303,275

Deferred Outflows of Resources and Deferred Inflows of Resources

At December 31, 2019, the City's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

PERS 1	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings on pension plan investments	\$ -	\$ 701,828
Contributions subsequent to the measurement date	922,533	-
TOTAL	\$ 922,533	\$ 701,828

PERS 2/3	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 970,632	\$ 728,373

Total	\$ 701,828	\$ 5,939,262	\$ 541,568	\$ 5,964,970	\$ 13,147,628

B. Local Sponsored Pension Plans***City of Bellingham Firefighters' (FFP) and Police Officers' Pension (POP) Plans****Plan description*

The City provides two closed single-employer defined benefit pension plans for retired and disabled firefighters' and police officers'. The FFP and POP provide retirement, disability, and death benefits to plan members and their beneficiaries. The plans are governed by the firefighters' and police officers' pension boards which are responsible for the management of the plan assets. Both systems were established and are administered in accordance with state laws RCW 41.18 and 41.20. Financial reporting for both of these plans are contained solely in the basic and individual fund statements of this report.

Board membership

The FFP is administered by a fire pension board comprised of the city council finance committee chairperson, the mayor, the finance director, two active members of the plan, and an alternate firefighter.

The POP is administered by a police pension board comprised of the president of the city council, the mayor, the finance director, and three active members of the plan.

Summary of significant accounting and funding policies

Both plans are closed to new participants, no longer have any active employees and are no longer receiving employee nor employer contributions. Pension benefits have been pre-funded with employer contributions however the accumulated assets do not meet the irrevocable, dedicated, and legally protected requirements provided for under paragraph 4 of GASB 73.

Plan benefits

The City's obligation under the plans consists of paying full benefits, including payment to beneficiaries, for members who retired prior to March 1, 1970, and partial or excess benefits over LEOFF Plan I benefits for those members who retired or will retire after March 1, 1970. Pension benefits are tied to the current employee pay rates including cost of living adjustments. Benefits are calculated at 2% per year of service and on the average final compensation for the last two years of credited service. Each member in service on March 1, 1970, receives the greater of benefit payable under the DRS LEOFF Plan I system or the benefits available under the old law. Where benefits under the old law exceed those under LEOFF Plan I, the excess benefits are paid by the pension fund of the City employing them on March 1, 1970. There were no changes in benefit provisions in the current year.

FFP members are eligible for retirement after completing 5 years of service and attaining the age of 50. A member is eligible for disability benefits if disabled for a minimum of 6 months. An individual becomes vested after 5 years of service. All existing members of this closed plan are fully vested.

POP plan members are eligible for benefits after completing 25 years of service. A member is eligible for disability benefits if disabled for a minimum of 6 months. An individual becomes vested after 5 years of service. All existing members of this closed plan are fully vested.

Plan Membership

	FFP 12/31/19	POP 12/31/19
Active employees	0	0
Total number retirees	15	10
Total number beneficiaries	17	0
Total number participants	32	10
Average retiree age	80.1	79.4
Average beneficiary age	84.8	0.0
Average retiree monthly benefit	\$1,113	\$783
Average beneficiary monthly benefit	\$1,293	\$0

Actuarial methods and assumptions

Actuarial valuations and projections of benefits for financial reporting purposes are made using estimates, methods and assumptions that include techniques that are designed to reduce the effects of short-term volatility. The actuarial calculations of the plans reflect a long-term perspective about the probability of events far into the future and the amounts are subject to continual revision. Both the measurement date and the actuarial valuation date of the pension liability is December 31, 2019. A full actuarial valuation is performed every two years, with the most recent valuation being performed at December 31, 2019.

The following significant assumptions are used in the most current study:

Pension actuarial methods and assumptions for FFP and POP
--

Actuarial valuation date	12/31/2019
Actuaial measurement date	12/31/2019
Fiscal year end date	12/31/2019
Actuarial cost method	entry age normal, level % of salary
Interest rate for discounting future liabilities	2.75%
General inflation	2.5%
Payroll growth	3.0%
Mortality rates - healthy participants	RP-2014, with scale MP-2014, projected to 2024.
Mortality rates - disabled participants	RP-2014 , with scale MP-2014, projected to 2024, set forward 3 yrs.
Future COLA for city benefits	3.0%
Future COLA for LEOFF benefits	2.5%
Changes since prior valuation	Discount rate was lowered from 4% to reflect the change from prefunded reporting under GASB 68, to non prefunded reporting under GASB 73.

City of Bellingham Firefighters' (FHC) and Police Officers' (PHC) Health Care Plans*Plan description*

The City provides two closed single-employer defined benefit healthcare plans for firefighters' and police officers' employed prior to October 1, 1977, in accordance with the Revised Code of Washington (RCW) 41.26. The FHC and PHC plans provide LEOFF Plan 1 retired employees with lifetime medical and long-term care benefits. Dependent spouses and children are not covered. Financial reporting for both the FHC and PHC are contained solely in the basic and individual fund statements of this report.

Board membership

The FHC is administered by a fire pension board comprised of the city council finance committee chairperson, the mayor, the finance director, two active members of the plan, and an alternate firefighter.

The PHC is administered by a police pension board comprised of the president of the city council, the mayor, the finance director, and three active members of the plan.

Summary of significant accounting and funding policies

Funding for LEOFF 1 retiree healthcare costs is provided entirely by the City as required by the Revised Code of Washington (RCW) 41.26. There are no active employee nor retiree contributions. The plans are both closed to new participants.

Medical care benefits are funded on a pay-as-you-go basis as such there are no assets accumulating.

Long-term care benefits are being pre-funded with employer contributions however the accumulating assets do not meet the irrevocable, dedicated, and legally protected requirements provided for under paragraph 4 of GASB 75.

Plan benefits

The plan purchases 1 of 2 types of Premiera medical insurance for plan participants depending upon the participant's age, reimburses participants for out-of-pocket medical expenses (including Medicare premiums), and pays for long-term care costs.

Plan Membership

	FHC 12/31/19	PHC 12/31/19
Active employees	0	0
Total number of participants	60	39
Average participant age	74.5	73.3

Actuarial methods and assumptions

Actuarial valuations and projections of benefits for financial reporting purposes are made using estimates, methods and assumptions that include techniques that are designed to reduce the effects of short-term volatility. The actuarial calculations of the plans reflect a long-term perspective about the probability of events far into the future and the amounts are subject to continual revision. Both the measurement date and the actuarial valuation date of the OPEB liability is December 31, 2019. A full actuarial valuation is performed every two years, with the most recent valuation being performed at December 31, 2019.

The following significant assumptions are used in the most current study:

OPEB actuarial methods and assumptions for FHC and PHC	
Actuarial valuation date	12/31/2019
Actuarial measurement date	12/31/2019
Fiscal year end date	12/31/2019
Actuarial cost method	entry age normal, level % of salary
Interest rate for discounting future liabilities	2.75% per yr., based on all yrs. discounted at municipal bond rate (bond buyer 20-bond GO index as of the measurement date).
General inflation	2.5% per yr.
Payroll growth	3.0% per yr.
Annual premium rate	6.2% in 2020 decreasing .1% each yr. thereafter.
Mortality rates - healthy participants	RP-2014, with scale MP-2014, projected to 2024.
Mortality rates - disabled participants	RP-2014 , with scale MP-2014, projected to 2024, set forward 3 yrs.
Long-term care costs	Current costs were used for retirees receiving LT care. For all others, costs were assumed at \$63,749 per yr. in 2020, with an average duration of 2.2 yrs.
Health care reimbursements	Average of the prior 3 yrs. annual reimbursements by individual were valued, increased with health care trend to 2020.
Changes since prior valuation	The interest rate for discounting future liabilities was changed to reflect current municipal bond rates. Premium increase rates were modified to better reflect anticipated experience. LT care cost assumptions were revised. Health care reimbursement assumptions were revised.

19. Tax abatements

The City provides tax abatements under two programs: Multifamily Housing, and an Urban Village Business and Occupation (B&O) phased tax credit.

The Multifamily Housing program was established under RCW 84.14 and municipal code chapter 17.82. The program is used to encourage increased residential opportunities, including affordable housing opportunities, in cities that are required to plan or choose to plan under the growth management act within urban centers, and to stimulate the construction of new multifamily housing and the rehabilitation of existing vacant and underutilized buildings for multifamily housing in urban centers. To be eligible for this program the housing project must be located within a targeted residential area, not displace existing residential tenants, include at least four units of multifamily housing and at least 50 percent of the space for multifamily housing must be provided for permanent residential occupancy. The program provides an exemption from ad valorem property taxation for 8 or 12 years for the value of new housing construction, conversion, and rehabilitation improvements that qualify under the program. To qualify for the 12 year exemption the applicant must commit to renting or selling at least 20 percent of the multi-unit housing units as affordable housing units. The owner must continue to comply with the requirements of the program and is subject to a compliance review annually. If it is determined the owner is not complying with the terms of the contract, the tax exemption will be cancelled. The City currently has agreements with ten property owners that qualify under the program for a total property tax valuation of \$73,478,708 and an estimated tax abatement of \$162,185 for fiscal year 2019.

The Urban Village B&O phased tax credit was established under municipal code chapter 6.04.105. New businesses and branches that locate in Downtown, Old Town, Waterfront, Samish Way or the Fountain District are eligible for a graduated tax credit of 90% for the first year, 75% for the second year, and 50% for the third year of operations for all Business and Occupation taxes due to the City. The business owner must submit an application and receive approval from the Finance Director for the credit. If the owner relocates the business outside the eligible urban village within three years of the effective date of the credit, the total amount of taxes for which the credit has been claimed for current and prior reporting periods shall be immediately due. The City currently has fourteen agreements with businesses in this program. B&O tax payments are considered confidential information and are not disclosable to unauthorized individuals per RCW 82.32.330(6) and 19.02.115(5).

20. Closed funds

Fund 113 – Paths and Trails Reserve - In 1975, the City of Bellingham passed Ordinance 8356 creating the Paths & Trails Reserve. This fund was created to account for the one-half of one percent of motor vehicle fuel taxes received by the Street fund used to establish and maintain paths and trails for bicyclists, equestrians and pedestrians. In 2019, the accounting for this revenue was consolidated into the Street fund. On May 20, 2019, the Bellingham City Council passed Ordinance 2019-05-017, dissolving the Paths & Trails Reserve fund. The residual cash in the fund was transferred to the *Street fund*.

Fund 134 – Olympic-Whatcom Falls Park Addition - In 2006, the City of Bellingham created the *Olympic-Whatcom Falls Park fund* for the purpose of accounting for the settlement funds received from the Olympic-Whatcom Falls Park Addition property settlement. All proceeds placed in the fund have been disbursed. On December 16, 2019, the Bellingham City Council passed Ordinance 2019-12-043, dissolving the Olympic-Whatcom Falls Park Addition fund. The residual cash in the fund was transferred to the *Greenways fund*.

21. Implementation of Governmental Accounting Standards Board (GASB) pronouncements

Effective for fiscal year 2019 reporting, the City adopted the following standards issued by the Governmental Accounting Standards Board (GASB):

Statement No. 84, *Fiduciary Activities*, This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

In implementing GASB 84, the City has re-evaluated the reporting of local Pension funds as fiduciary activities under GASB 68 for pension in trust equivalent arrangements and has opted to begin reporting under GASB 73 for pension in non-trust arrangements. The pension funds are now reported in the General Fund. The remaining fiduciary activities are custodial in nature and are reported in the basic financial statements.

Statement No. 73, *Accounting and Financial reporting for pensions and relates assets that are not within the scope of GASB Statements 68, and amendments to certain provisions of GASB statements 67 and 68*. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, Financial Reporting for Pension Plans, and Statement 68 for pension plans and pensions that are within their respective scopes.

The Pension funds are now reported as part of the general fund and the disclosures required under GASB 73 can be found in the notes and required supplementary information of this report.

22. Prior period adjustments

Governmental fund statements

The city has reported a total governmental fund prior period adjustment in the amount of \$26,795,980. \$4,601,406 of the adjustment is to recognize City of Bellingham business and occupation tax revenue received January and February 2019, for December 2018 business activity. \$22,194,574 of the adjustment relates to the implementation of GASB 84 *fiduciary activities*, whereas the pension and OPEB funds had previously been reported under GASB 68 as *trust fund* fiduciary activities, the pension and OPEB funds are now reported within the general fund under GASB 73 as *non-trust fund* governmental activities.

Proprietary fund statements

The city has reported a total proprietary fund prior period adjustment in the amount of \$81,722 to recognize City of Bellingham business and occupation solid waste utility tax revenue received January 2019, for December 2018 business activity.

Government-wide statements

The city has reported a total government-wide prior period adjustment in the amount of \$13,887,282. As previously stated above, \$26,795,980 of this amount comes from the governmental funds statements, \$81,722 from the proprietary fund statements, and \$(12,990,420) relates to removing the Pension and OPEB fund assets at the government-wide level to report a *Total Pension Liability* under GASB 73 versus the previously reported *Net Pension Liability* under GASB 68.

23. Subsequent events*COVID-19*

In February 2020, the Governor of the state of Washington declared a state of emergency in response to the spread of a deadly new virus. In the weeks following the declaration, precautionary measures to slow the spread of the virus have been ordered. These measures include closing schools, colleges and universities, cancelling public events, prohibiting public and private gatherings, and requiring people to stay home unless they are leaving for an essential function.

These measures are anticipated to have a significant financial impact on the city; however, the length of time these measures will be in place, and the full extent of the financial impact on the city is unknown at this time.

** Information is available beginning in 2018.*

Medical care benefits are funded on a pay-as-you-go basis as such there are no assets accumulating.

Long-term care benefits are being pre-funded with employer contributions however the accumulating assets do not meet the irrevocable, dedicated, and legally protected requirements provided for under paragraph 4 of GASB 75.

The following assumptions have changed since the last measurement date: The interest rate for discounting future liabilities was changed to reflect current municipal bond rates. Premium increase rates were modified to better reflect anticipated experience. LT care cost assumptions were revised. Health care reimbursement assumptions were revised.

FUNDS CONSOLIDATED WITH 001-GENERAL FUND GASB STATEMENT NO. 54 FOR REPORTING**111 – Streets**

Responsible for maintenance for all City streets. This funds revenues are derived from state sales tax, diverted county road property tax, permits, grants, and impact fees.

134 – Olympic-Whatcom Falls Park Addition

Created in 2006 for the purpose of accounting for the settlement funds from the Olympic-Whatcom Falls Park Addition property settlement. In 2019, the proceeds placed in the fund have been disbursed and the fund was closed.

141 – First ¼% Real Estate Excise Tax

Proceeds from this tax fund construction, repair, replacement, rehabilitation, or improvement projects as authorized by RCW 82.46.010. Established by Ordinance 9270 and amended by Ordinance 10273.

142 – Second ¼% Real Estate Excise Tax

Proceeds from the second ¼% real estate tax are used solely for financing capital projects specified in a capital facilities plan element of the comprehensive plan as authorized by RCW 82.46.035. Established by Ordinance 1027.

173 – Greenway III Levy

Funded by increased property tax of \$.57 per thousand of assessed valuation, to be collected over ten years. Continues the acquisition, improvement and maintenance of greenways areas begun by the original greenway levy. Voter approved levy passed in 2006. The fund was established by Ordinance 2007-01-004.

177 – Park Impact Fee

Park impact fees and interest earnings are invested until utilized for an approved project or refunded to the property owner if not utilized in the prescribed amount of time. Established by Ordinance 2006-02-012.

178 – Sportsplex

Created as a repository for the security deposit and the accumulated interest on the security deposit for the Whatcom Soccer Commission lease of the Sportsplex. The lease agreement requires that any interest accrued on the deposited monies be added to and become part of the security deposit. Established by Ordinance 2006-01-001.

612 – Firefighters Pensions

Pension payments for pre March 1, 1970 firefighters or surviving spouses, and medical and long-term care benefits for firefighters hired prior to October 1, 1977. Revenue is derived from property tax, fire insurance premium tax, and general fund contributions. Authorized by City Council July 26, 1909 and by Ordinance 1999-12-083.

613 – Police Officers Pensions

Pension payments for pre March 1, 1970 police officers or surviving spouses, and medical and long-term benefits for police officers hired prior to October 1, 1977. Revenue is derived from general fund contributions and sales of unclaimed property. Authorized by City Council July 26, 1909 and by Ordinances 1489 and 1999-12-083.

SPECIAL REVENUE FUNDS**113 – Paths & Trails Reserve**

Establishes and maintains paths and trails for bicyclists, equestrians and pedestrians. The source of revenue is one-half of one percent of motor vehicle fuel taxes received by the street fund. Funds must be expended for the purpose required within ten years of receipt. Established in the 1975 Budget by Ordinance 8356. In 2019, this revenue was consolidated into the Street fund and this fund was closed.

126 – Library Gift

Accumulates cash gifts from private donors, for donor specified library projects. Established by Ordinance 7573 and transferred to special revenue classification by Ordinance 2001-11-086.

131 – Olympic Pipeline Incident

Environmental incident settlement funds used to implement maintenance and monitoring tasks on Whatcom Creek pursuant to the Olympic Pipeline Whatcom Creek Restoration Plan. Established by Ordinance 2005-10-082.

136 – Environmental Remediation

Created to account for revenues, provided by other responsible parties, for the purpose of funding environmental remediation. Established by Ordinance 2011-06-029.

150's - Police Special Purpose**151 – Police Federal Equitable Sharing**

Created when the City entered into agreement with the Department of the Treasury to participate in the program for federally forfeited property or proceeds. Money received under the program is spent pursuant to federal guidelines. Established by Ordinance 10623.

152 – Asset Forfeiture/Drug Enforcement

Proceeds of seizures are deposited into this fund. Used exclusively for expansion of narcotics enforcement services. Established by Ordinance 9894 and amended by Ordinance 10624.

153 – Criminal Justice

Funded by state entitlements. Supplements staffing costs and capital equipment purchases. Established by Ordinance 1999-07-045.

160 – Public Safety Dispatch

Provides communication services for Bellingham's police, fire and EMS units, and participating public safety agencies in Whatcom County. Funding is provided by user agency fees and intergovernmental revenue derived from 911 tax. This separate fund facilitates reporting financial operations to user agencies and to the 911 Center's Board of Administration. Established by Ordinance 9165.

161 – Transportation Benefit District

A voter approved 0.2% sales tax that began in April of 2011, and runs for ten years. Funds are used to pay for Sunday bus service in Bellingham and maintain and build transportation infrastructure. Established by Ordinance 2011-02-006.

162 – Public, Education and Government Access Television

Created to account for revenues and expenses related to the operation of public, education and government access television. Funded by a portion of the revenue received from Comcast's cable television franchise agreement. Established by Ordinance 2011-12-076.

180 – Tourism

A tax that pays costs of promotion, acquisition, and operation of tourism-related activities and facilities. The source of revenue is a four percent special excise tax on transient lodging, pursuant to RCW 67.28.180 and Ordinances 8319 and 10915.

181 – Low Income Housing

A voter approved seven-year, \$21 million, property tax levy to provide housing assistance for homeless and low income citizens, beginning in 2013. Established by Ordinance 2012-06-033. In November 2018, a ten-year, \$40 million, property tax levy was voter approved.

190 – HUD Grants

Federal grant revenue dedicated to upgrade neighborhoods, expand affordable housing choices, assist community social service agencies, address basic human needs and create employment opportunities for individuals with low and moderate incomes.

DEBT SERVICE FUNDS**224 – 2004 Sportsplex LTGO Bond**

\$4,315,000 to finance the cost of acquiring the Sportsplex building, an indoor ice-rink and soccer facility. These facilities are leased to the Whatcom Soccer Commission. Established by Ordinance 2004-02-011. This bond was refunded by the 2012 refunding bond.

225 – 2004 PFD/Civic Field LTGO Bond**126 – Library Gift**

\$16,375,000 to finance the cost of development of a regional center, improvements to the City-owned civic field complex, and the refunding of the 1996 aquatic facility bonds. Established by Ordinance 2004-12-093. This bond was refunded by the 2012 refunding bond.

226 – 2011 Qualified Energy Conservation Bond (QECB)

\$6,480,000 to finance the costs of improvements in over 20 City-owned municipal buildings. These bonds are term bonds, principal is due in full at the maturity date. The City is accumulating money in this fund to make the principal payment in 2025. Established by Ordinance 2011-12-077.

227 - 2016 PFD Refunding Bond

Refunding of \$9,640,000 bonds originally issued in 2007 to finance the cost of development of the Art and Children's Museum and restoration of the Mt. Baker Theatre. Established by Ordinance 2016-03-009.

231 – Drake Note

\$225,000 for the Big Rock Garden Nursery. Established by Ordinances 10347, 48, 49 and 10378.

235 – Governmental Debt Service

This fund is used to account for debt service payments on governmental loans. Established by Ordinance 2013-05-035.

245 – Local Improvement District (LID) Guaranty

The guaranty fund assures that payments on individual LID's will be made on time if collections from district property holders are insufficient. Property in arrears is foreclosed and the proceeds deposited to the guaranty fund. The balance in the guaranty fund is maintained at twelve percent of the combined assessments in the LID funds. The LID guaranty fund was established by Ordinance 4764. When an LID bond's final debt service payment has been made to the fiscal agent, and there are still collections due from the property owners, these LIDs are moved to the guaranty fund until the remainder of collections from district property holders are complete.

PERMANENT FUNDS**701 – Greenways Maintenance Endowment**

Revenue is derived from property tax levies, donations, and interest earnings for the purpose of maintaining properties acquired and developed with greenway funds. Originally established by Ordinance 1998-02-004, transfer authorized by Ordinance 2001-11-086 to replace non-expendable trust fund (601) in preparation of GASB 34 implementation and reporting in 2002, and modified by Ordinance 2007-04-034 for inclusion of the Greenways III Levy.

702 – Natural Resource Protection and Restoration

This permanent fund was created in 2004 to account for the \$4 million settlement passed on by the State as a part of the Olympic Pipeline Settlement. The principal cannot be spent for 50 years. Interest earnings will be spent on protection and restoration projects. Established by Ordinance 2004-01-001.

ENTERPRISE FUNDS**456 – Cemetery**

Operates and maintains Bayview Cemetery. Revenue is derived from the sale of lots, interment charges and sale of grave liners and memorials. Perpetual care for upkeep of graves and cemetery property is funded from sale of gravesites and City funding. Established by Ordinances 52 and 9898.

460 – Golf Course

Lake Padden Golf Course was constructed in 1970 as part of Lake Padden Park with funding from a bond issue and additional City funding. The parks and recreation department leases out the operation of the golf course. Established in the 1971 Budget by Ordinance 7967.

465 – Parking Services

Operates and maintains municipal parking system consisting of parking garages, surface lots, on-street parking and commercial space rental. Revenue primarily derived from fees and rentals. Established by Ordinances 7747 and 10367.

470 – Medic One

Provides countywide ambulance service through a contract with Whatcom County. Established by Ordinance 8328.

475 – Development Services

Primary source of revenue is fees for inspection services. Ensures compliance with state and local codes. Established by Ordinance 10035.

INTERNAL SERVICE FUNDS**510 – Fleet Administration**

Consolidates vehicles and equipment under one fund for acquisition, repair, maintenance and replacement. Revenue is derived from renting these assets to user funds and mechanical shop services to other funds and other government agencies. Established by Ordinance 7684.

520 – Purchasing and Materials Management

Consolidates the functions of purchasing, warehousing and issuing supplies to various departments of the City. Revenue is derived from inventory sales and overhead charges. Established by Ordinance 8929 and 8976.

530 – Facilities Administration

Consolidates custodial services and facility maintenance under one fund. Established by Ordinance 10269.

540 – Technology and Telecommunications

Purchases telecommunications and technology equipment and services, and recovers the costs from the user departments. Provides a source for centralized payment of telecommunication and technology expenses. Excess funding is used for future acquisitions. Established by Ordinance 9747, revised by Ordinance 2011-12-075.

550 – Claims and Litigation

Established in 1977 to pay expenses for claims, litigation, administrative costs and settlements and judgments on behalf of all City departments. Departments pay insurance premiums into this fund for future contingencies. Costs over \$500,000 are covered by excess liability insurance. Established by Ordinance 8616.

561 – Unemployment Compensation

Established to reimburse the State on a quarterly basis for unemployment claims paid to former employees. State law requires that municipalities participate in the State Unemployment Compensation Plan. Effective January 1, 1978, to finance this fund, a percentage of payroll is transferred each payroll period as required. Established in the 1978 Budget by Ordinance 8627.

562 – Worker's Compensation Self-Insurance

Covers the cost of claims resulting from injuries on the job or job-related illnesses, and related preventive, safety and disability programs. Established and amended by Ordinances 8616 and 1999-02-005.

565 – Health Benefits

Covers the costs of providing medical, dental, vision and employee wellness benefits to City employees. Revenue is derived from employer (paid by City departments on a per employee basis) and employee premium charges. Established by Ordinance 8942.

570 – Public Works Administration and Engineering

Established to track and distribute the costs of management and engineering services shared within the public works department and other City funds that contract for their services. Established by ordinance 2014-12-071.

STATISTICAL SECTION

This part of the City of Bellingham's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends —————	181
<i>These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.</i>	
Revenue Capacity —————	187
<i>These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.</i>	
Debt Capacity —————	192
<i>These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	
Demographic and Economic Information —————	197
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.</i>	
Operating Information —————	200
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.</i>

Source: City of Bellingham CAFR, governmental fund balance sheet.

Note: In 2011, GASB statement no. 54 changed the classification of fund balances and the definition of special revenue funds. As a result of the revised definition of special revenue funds, several separately budgeted funds are merged into the General Fund for reporting purposes. In 2013, it was determined that a \$8.5M rainy day fund within the General Fund, previously reported as restricted fund balance, should be reported as unassigned and has since been reclassified. In 2018, it was determined that the long-term portion of notes receivable in other governmental funds should be reclassified as restricted fund balance.
