						On 10/30, I attended the After Action Conference held for the Grey Fox Drill which occurred in Sumas on 10/16/19. I was an observer for that drill. Also in attendance were three Customs and Border Protection Officers, all of which were participants in the drill. We all discussed what worked and what didn't during the course of the simulated train derailment and cross-border response.

						Doug and I went to CBP Sector Headquarters in Blaine today. WCSO has their cross-band repeater on their tower, and they asked us to go reprogram it for them. Emails, phone conversations, and personal contact with the following were involved in setting up this work and getting it accomplished today: Lynn Edward Hahn (Field Technology Officer), Charles H Hayden (Field Technology Supervisor), <i>Chris Kuhn (Acting Division Chief)</i> .
