

Public Works Scavenger Hunt

How has the City of Bellingham Public Works helped your neighborhood? Take a walk around your neighborhood and see if you can spot items that Public Works has installed in your neighborhood to keep you safe, clean and healthy while you walk, bike, drive, play and live.

Paved Street
for cars to get you from here to there

Storm Drain
to move rainwater to our local creeks, lakes and Bellingham Bay

Fire Hydrant
to help put out fires

Bike Lane
to keep cyclists safe while biking along roads

Man Hole Cover
to access pipes buried under the road

Street Sign
to help with navigate roads

Street Light
to light up streets and sidewalks at night

Sidewalk
a safe place to walk alongside roads

Cross Walk
designated places to safely cross roads

Bridge
to help you get over creeks

Public Works Departments, here in Bellingham and all across the country, provide people with drinking water, wastewater and stormwater management, safe streets and sidewalks, fire hydrants and so much more. Public Works plows our roads when there is snow and cleans them in the summer time to keep our lakes, streams, and rivers clean. **Every neighborhood in our City has services Public Works provides!**
