Subject: The Woods at Viewcrest - RFI Response Extension

Follow Up Flag: Follow up
Flag Status: Flagged

Hi Steve,

I am writing in regards to the RFI issued on April 28th, 2022 for The Woods at Viewcrest project application (lead permit SUB2022-0011). The 120 day response period for this RFI expires on or around August 26th. I would like to formally request an extension on this RFI response period pursuant to BMC 21.10.080. The RFI resulted in the need for updates to various reports and studies, and further site evaluation, requiring consultation with a number of design professionals on the team. Additional time for the applicant team is needed in order to thoroughly consider and respond to the RFI comments. It is possible that a complete response will be ready in the coming weeks, prior to the expiration, but in order to be cautious and provide enough time for unforeseen delays, an additional 60 days of time is requested. Please consider this request for extension and if possible provide a response at least one week prior to the deadline (August 19th). Thank you for your consideration.

Ali
