

25th Street and Bill McDonald Parkway Signal

Project Overview: ES-0358

High student pedestrian volumes crossing Bill McDonald Parkway between Happy Valley and WWU in an area of limited sight distance call for safety improvements at this location. This project provides improved pedestrian, bicycle, transit and auto safety and access. WTA and WWU are providing a significant portion of the funding.

Update - February 2011

Accomplishments: Project punch list completed.

Next Milestones: Closeout.
