

Birchwood/Northwest Sidewalk Improvements and Trail

Project Overview: ES-0503

This project address the pedestrian access along Birchwood/Cedarwood avenues near Northwest Avenue. Currently no defined pedestrian path exists on the south side of Cedarwood Avenue to Northwest Avenue and the access to the adjacent business does not meet current standards. Sidewalk installation will remedy both of these issues. To provide safe pedestrian routes and connectivity to Squalicum Parkway, a trail is also proposed. Funding comes from Transportation Benefit District #1.

Status - May 2017

Accomplishments: Project Complete.

Next milestones: Complete As-builts

Project Details

- Status - Finished
- Contract Awarded - February 6, 2017
- Contract Amount - \$53,144
- Contractor - Bianchi Construction, Inc.
- Completion Date: May 5, 2017
- Final Contract Amount: \$64,200
- Vicinity Map
- Preconstruction photo

Affected Neighborhoods

- Birchwood
