

January 19, 2021

Hello!

This is Jackie Tabone. I mainly wanted to echo what others have said throughout the meeting and in public comment.

I agree it is important we prioritize access for impacted community members and that this be considered when filling the 3 open positions. I also think having a physical building or immigration office would be beneficial for folks to access their needs in one place and to have a consistent location to report violations. Those reports would then need to be acted on.

Police accountability is also important since they are complicit in removing folks from the community by cooperating with Immigrations and Customs Enforcement.

Lastly, the link does need to be more accessible, I had an issue finding it as well.

Thanks for your time,

Jackie
