Greetings park goers,

Cordata Park Phase 2 construction began in May of this year. Phase 2 includes the construction of the proposed Bear Creek bridge approach ramp, east of the pump track.

The Contractor will be hauling materials on the section of trail shown on this map until the end of October 2023.

These fences were erected for your safety; so please don’t go past the fences. In the end your patience will be rewarded with a new trail connection to Horton Road.

If you have any questions, call Jonathan Schilk at 360.778.7000
