

City of Bellingham Current Construction Project

2006 Street Resurfacing/Overlay Program

Project Description

This annual overlay program consists of the resurfacing of existing city streets. This year the project includes installation of approximately 20,000 tons of hot mix asphalt will occur over 5 miles of existing roadways. This project also includes repair of existing sidewalks and drainage conveyance systems throughout various streets on the overlay list. In addition, portions of Holly and Fraser Streets will be resurfaced with funds from ES-0327, but bid through separate projects later this year.
