

# City of Bellingham Current Construction Project

## 2008 Neighborhood Traffic Safety Program

### Project Description

As part of an annual program to reduce cut-through traffic and speeding on residential streets, this project includes the installation of traffic calming devices in selected areas. Included in this year's program is the construction of speed humps on Grant Street, traffic diverters on King Street, and a combination of speed "pillows" and intersection improvements on E. Victor and Meridian Street. Projects are requested by neighborhood groups, evaluated and ranked by Public Works staff, then designed and constructed each year. Two locations not included for construction due to budgetary reasons include Alderwood Avenue and Pacific Street. These improvements will be prioritized for construction in 2009. To find out more about this annual program, please contact our office or visit the website at <http://www.cob.org/documents/pw/transportation/2008-ntsp.pdf>

**Project Bid No:** 109B-2008

**Project Number:** ES-0389

### Project Schedule

- Awarded: 8/21/2008
- Anticipated working days to complete: 25

### Contract Amount

- \$158,064.00

### Project Engineer

Derek Holzl, P.E.  
Phone: (360) 778-7900  
Email: [dholzl@cob.org](mailto:dholzl@cob.org)

### Contractor

Larry Brown Construction
