

# City of Bellingham Current Construction Project

## James Street Pedestrian Enhancement

### Project description

This project consists of enhancements for the pedestrian crossings at the James/Kentucky intersection and the James/Carolina intersection. The work includes rebuilding existing sidewalks to include “bulb outs”, new handicap ramps and truncated domes. Work will also include installation of limited, underground electric wiring for the installation of an overhead, flashing “Pedestrian Crossing” warning system. The design was overwhelmingly approved by the Sunnyland Neighborhood at their meeting in March.

**Project Bid No:** 37B-2008

**Project Number:** ES-0396

### Project Schedule

- Awarded 4/14/08
- Working days: 15

### Estimated Project Cost

- \$87,467.00
