

City of Bellingham Current Construction Project

Kearney Road Reservoir

Project Description

The 1993 Comprehensive Water Plan identified a need for additional water storage to provide fire protection and more uniform pressure in the Cordata and Bakerview areas. The new 2.48 million gallon reservoir will replace a smaller tank in the service area. This reservoir will eventually feed another water service zone north of King Mountain

Project Bid No: 130B-2004

Project Number: EW-0002

Project Schedule

- Awarded 4/18/05
- Anticipated completion: one year

Estimated Project Cost

- \$3,068,742.77
