

City of Bellingham Current Construction Project

Sunset Heights Pump Station

Project Description

This project includes the construction of a new water pump station to provide fire flow for Western Washington University's student housing. The existing tower will eventually be removed and the site will be landscaped. The project also includes about 1,300 feet of new water main, sanitary sewer main and structural pavement overlay on Highland Drive. The design of the project has been closely coordinated with the University.

Project Bid No: 58B-2005

Project Number: EW-0098

Project Schedule

- Awarded 6/27/05
- Complete street work by 9/9/05

Estimated Project Cost

- \$1,438,862.97
