

## City of Bellingham Current Construction Project

### Cornwall Avenue Water Main Replacement

#### Project description

This project consists of installation of a water main on Cornwall Avenue between Chestnut Street and W. Illinois Street, and on Halleck Street between Cornwall Avenue and New Street. The new 12" diameter ductile iron water main will replace the 10" cast iron pipe originally installed in 1918.

The project also consists of a pavement overlay on Cornwall Avenue between York Street and E. North Street. Work includes the installation of waterlines, fire hydrants, sidewalk, pavement overlay, and pavement markings.

**Project Bid No:** 9B-2008

**Project Number:** EW-0156

#### Project Schedule

- Awarded 2/25/08
- Working days: 85 days

#### Estimated Project Cost

- \$2,215,196.40
