

Eliza Avenue Connector

Project Overview: ES-0441

The City began working with Bellis Fair Mall management in 2010 and adopted this multimodal arterial project. Bellis Fair Mall will dedicate 60-feet of right-of-way for a public street through the northwestern parking lot and the City will construct a new Eliza Avenue public collector arterial street, ADA-accessible sidewalk, crosswalks, and bicycle lane connection from Bellis Fair Pkwy to West Bakerview Road. The end result will be a complete multimodal arterial street connection on the northwest side of the Mall leading to a traffic signal at Eliza / W. Bakerview, benefiting regional traffic circulation and the citywide transportation network.

Update - July 2013

Accomplishments: Final walk through was completed on 5/20/2013.

Next Milestones: Project close out.
