

Russell-Irving Watermain Replacement Project

A project is starting soon in your area!

We're replacing aging watermains in your neighborhood:

- C Street, from Irving Street to Dupont Street
- Irving Street, from Young Street to C Street
- Dupont Street from C Street to D Street
- Russell Street, from Broadway Street to West Illinois Street
- Paving and curb ramp improvements also included

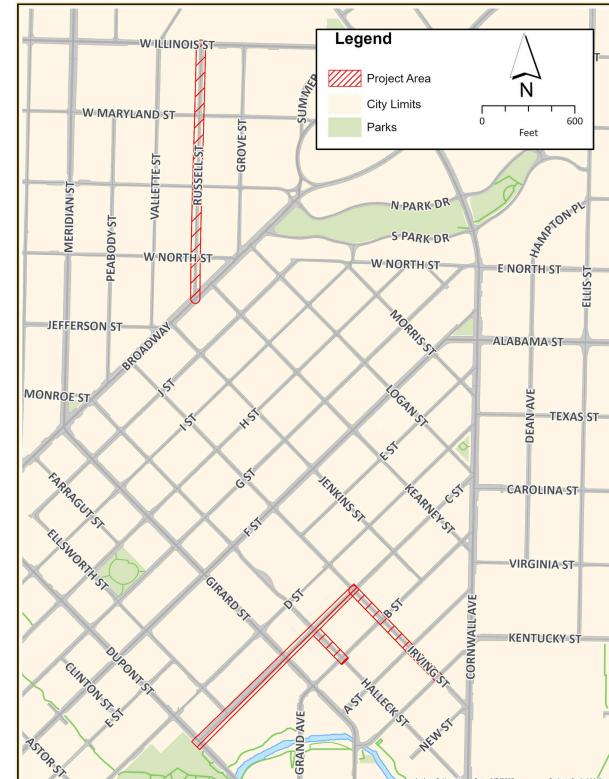

You may notice impacts during construction:

- Daytime single-lane closures
- Temporary limits to on-street parking
- Water service will be maintained during the project, except for some temporary interruptions
- Periodic pedestrian detours during ADA ramp improvement work

Estimated project timeline: June 2025 - December 2025

Thank you for your patience!

Your water system

The Public Works Department maintains approximately 431 miles of watermain lines, in a variety of sizes and ages. **One of the watermains that will be replaced with this project is from 1918!**

We are in the process of updating our Water System Plan to ensure that everyone continues to have access to reliable, clean and safe drinking water now and in the future. More information is available at engagebellingham.org/water-system-plan.
