

## Squalicum Creek Park Phase 2

### Photographs

Phase 2 completed:

### Description

Phase 2 was constructed in cooperation with the Department of Public Works. The work involved the construction of salmon habitat, consistent with the Park Master Plan, and trail facilities. Public Works funded the construction of the salmon habitat project using a Department of Ecology Centennial grant. Parks and Recreation funded the trail, stream crossing and related amenities with local funds.

### Status

Phase 2 construction complete
