

Chestnut-Bay at RR: Bridge Deck Rehabilitation

Project Overview: ER-0013

This project consists of rehabilitating the deteriorated, L-shaped bridge which spans the BNSF tracks. The structural improvements will remove the current weight restrictions. The bridge deck will be ground and overlaid with new pavement. The expansion joints will be replaced. The work will require a full closure of the bridge for six months. Federal bridge funds from 2012 will cover the cost.

Project Details

- Status - Complete
- Contract Awarded - March 23, 2015
- Contract Amount - \$1,577,207
- Contractor - Strider Construction
- Completion Date - 12/17/2015
- Final Contract Amount - \$2,018,192
