Squalicum Creek Corridor — Upcoming Projects

**Squalicum Creek Re-route Phases 3 & 4 Highlights**
- **Description:** This project will address water quality and habitat issues associated with Bug Lake.
- **Tentative construction timeline:** April to December 2020
- **Potential impacts:** During the installation of a fish-passable culvert under Squalicum Parkway in June 2020, the road will be reduced to one lane for approx. 2-3 weeks. Flaggers will be present and emergency vehicles will always be expedited. Traffic impacts will be minimal otherwise.

**Orchard Drive Extension Highlights**
- **Description:** This project will provide a key transportation link under I-5 and an alternative route between St. Joseph’s Hospital, Guide Meridian, and James Street.
- **Tentative construction timeline:** June 2020 to June 2021
- **Potential impacts:** Minimal traffic impacts during project construction include periodic flaggers and some additional truck traffic.
